PUBLIC DEVELOPMENT APPLICATION REPORT

April 20, 2018

David A. Patriarca, Mayor (via email)
Pemberton Township
500 Pemberton-Browns Mills Road
Pemberton, NJ 08068

Application No.: 1982-3514.005
Block 827.01, Lot 7.04
Pemberton Township

This application proposes placement of a 175 linear foot gabion retaining wall within an unnamed tributary to the north branch of the Rancocas Creek on the above referenced 16.23 acre parcel in Pemberton Township. The West End Park, a Township recreation area, is located on the parcel.

The placement of the gabion retaining wall will address a severe stream bank erosion problem that is resulting in a safety hazard for pedestrians utilizing the recreation area. The proposed nine foot wide gabion retaining wall will line the stream bank where the severe erosion is occurring.

The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.5) provides that the Commission's Executive Director, after consultation with the Chairman of the Pinelands Commission, may authorize immediate action when it is necessary to remedy a condition dangerous to life, health or safety. On December 5, 2017, the Commission staff issued a letter authorizing the immediate placement of a gabion retaining wall to eliminate the concerned safety hazard. The Commission staff's December 5, 2017 letter required that an after-the-fact application for the proposed placement of the gabion retaining wall be completed with the Commission. This application satisfies that requirement.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.28)

The proposed development is located in a Pinelands Regional Growth Area. The proposed development is a permitted use in a Regional Growth Area.

Wetlands Standards (N.J.A.C. 7:50-6.13)

The proposed development will be located in wetlands and the required buffer to those wetlands. The proposed development will disturb approximately 406 square feet of wetlands.

The CMP permits the placement of a retaining wall (linear improvement) in wetlands and the required buffer to wetlands provided the applicant demonstrates that certain CMP specified conditions are met. The applicant has demonstrated that there is no feasible alternative to the proposed development that does not involve development in wetlands and the required buffer to wetlands or that will result in a less significant adverse impact to wetlands and the required buffer to wetlands. In addition, the proposed development will not result in a substantial impairment of the resources of the Pinelands. With the conditions below, all practical measures are being taken to mitigate the impact on the wetlands and the required buffer to wetlands. The applicant has represented that the proposed development is necessary to alleviate a safety hazard for pedestrians utilizing the recreational area. The applicant had demonstrated that the need for the proposed development overrides the importance of protecting the wetlands.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed development will occur in an unvegetated portion of the stream bank. The proposed soil disturbance is limited to that which is necessary to accommodate the proposed development.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. The application does not propose revegetation.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Notice to required land owners within 200 feet of the above referenced parcel was completed on March 16, 2018. Newspaper public notice was completed on March 19, 2018. The application was designated as complete on the Commission's website on April 3, 2018. The Commission's public comment period closed on April 13, 2018. The Commission received one public comment (attached) regarding this application.

Comment: The commenter requested a copy of the application.

Staff Response: The staff contacted the commenter and left a telephone message that there was a photocopying charge for the information and plan and offered the commenter the opportunity to review the application file. The commenter did not respond to that message. The commenter is copied on this Public Development Application Report containing the Executive Director's findings.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to the plan, consisting of one sheet, prepared by Adams, Rehmann & Heggan Associates, dated October 2017 and revised to April 3, 2018.
2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.

3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.
4. Appropriate measures shall be taken during construction to preclude sedimentation from entering wetlands and shall be maintained in place until all development has been completed and the area has been stabilized.
5. The applicant shall obtain a NJDEP Freshwater Wetlands Permit for the proposed development.

CONCLUSION

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission **APPROVE** the proposed development subject to the above conditions.

**REPORT ON ORDINANCE 35-2017, AMENDING CHAPTER 225 (ZONING)
OF THE CODE OF EGG HARBOR TOWNSHIP**

April 27, 2018

Township of Egg Harbor
3515 Bargaintown Road
Egg Harbor Township, NJ 08234

FINDINGS OF FACT

I. Background

The Township of Egg Harbor is located in the southeastern Pinelands in Atlantic County. Pinelands municipalities adjacent to Egg Harbor Township include the Townships of Galloway and Hamilton and Estell Manor City in Atlantic County, as well as Upper Township in Cape May County.

On October 1, 1993, the Pinelands Commission fully certified the Master Plan and Land Use Ordinances of Egg Harbor Township.

On November 29, 2017, Egg Harbor Township adopted Ordinance 35-2017, amending Chapter 225 (Zoning) of the Township's Code by adopting definitions and revising permitted uses in two nonresidential zoning districts, one of which, the RCD (Regional Commercial Development) District, is located in the Pinelands Regional Growth Area. Ordinance 35-2017 adds adult day care health facilities and assisted living facilities as permitted uses in the RCD District. The Pinelands Commission received a certified copy of Ordinance 35-2017 on December 4, 2017.

Upon review of Ordinance 35-2017, Commission staff advised Egg Harbor Township that the ordinance would require amendment for purposes of consistency with Pinelands Comprehensive Management Plan (CMP) standards for assisted living facilities in the Regional Growth Area. The Township initially indicated, via email dated January 3, 2018, that it would request an extension of the Commission's review period so that the necessary amendments could be discussed and adopted. Subsequently, however, the Township notified the Commission that it would not be requesting such an extension. The Township instead asked that the Commission proceed with its formal review process for Ordinance 35-2017.

By letter dated February 7, 2018, the Executive Director notified the Township that Ordinance 35-2017 would require formal review and approval by the Pinelands Commission.

II. Master Plans and Land Use Ordinances

The following ordinance has been submitted to the Pinelands Commission for certification:

- * Ordinance 35-2017, amending Chapter 225 (Zoning) of the Code of Egg Harbor Township, introduced on November 1, 2017 and adopted on November 29, 2017

This ordinance has been reviewed to determine whether it conforms with the standards for certification of municipal master plans and land use ordinances as set out in N.J.A.C. 7:50-3.39 of the Pinelands Comprehensive Management Plan (CMP). The findings from this review are presented below. The numbers used to designate the respective items correspond to the numbers used to identify the standards in N.J.A.C. 7:50-3.39.

1. **Natural Resource Inventory**

Not applicable.

2. **Required Provisions of Land Use Ordinance Relating to Development Standards**

Ordinance 35-2017 amends Chapter 225 (Zoning) of the Code of Egg Harbor Township by adopting a definition for “Adult Day Health Care Facility” and permitting such facilities in the RCD (Regional Commercial Development) District. Ordinance 35-2017 also adds assisted living facilities as a permitted use in the RCD District. A portion of the RCD District is located in the Pinelands Regional Growth Area, with the remainder of the zone outside the Pinelands Area. As depicted on the attached map (see Exhibit #1), the RCD District is situated along the Garden State Parkway and is bisected by the Black Horse Pike (Route 322). Prior to the amendments adopted by Ordinance 35-2017, only non-residential uses were permitted in the RCD District, including offices, shopping centers, restaurants, schools, banks, gas stations, commercial recreation, warehouses and research laboratories.

Within Regional Growth Areas, the CMP provides that Pinelands municipalities may permit any use, with the exception of certain waste management facilities, provided residential density and opportunities for the use of Pinelands Development Credits are appropriately accommodated. The CMP also expressly authorizes assisted living facilities as a permitted use in Regional Growth Areas pursuant to N.J.A.C. 7:50-5.34, which sets forth specific standards for such uses. Among these standards is the establishment of a permitted residential density applicable to assisted living facilities, as well as a requirement for the use of Pinelands Development Credits when that permitted density exceeds eight units per acre. Egg Harbor Township Ordinance 35-2017 does not incorporate any density standards or PDC requirements for assisted living facilities in the RCD District; therefore, the ordinance is inconsistent with CMP standards.

In order to make Ordinance 35-2017 consistent with N.J.A.C. 7:50-5.34 of the CMP, Egg Harbor Township will need to amend Chapter 225 (Zoning) of its code to establish a permitted density of no more than eight units per acre for assisted living facilities in that portion of the RCD District located in the Pinelands Area. Additional ordinance amendments will be necessary to make clear that a density in excess of eight units per acre may be permitted only through the use

of PDCs. The necessary ordinance language is included in the conditions for certification set forth in Attachment A to this report.

Ordinance 35-2017 is not consistent with the development standards set forth in the Comprehensive Management Plan. However, with the adoption of the amendments set forth in Attachment A, or comparable revisions, this standard for certification will be met.

3. Requirement for Certificate of Filing and Content of Development Applications

Not applicable.

4. Requirement for Municipal Review and Action on All Development

Not applicable.

5. Review and Action on Forestry Applications

Not applicable.

6. Review of Local Permits

Not applicable.

7. Requirement for Capital Improvement Program

Not applicable.

8. Accommodation of Pinelands Development Credits

Ordinance 35-2017 amends Chapter 225 (Zoning) of the Code of Egg Harbor Township by adding assisted living facilities as a permitted use in the RCD District, a portion of which is located in the Pinelands Regional Growth Area. As detailed in section 2, however, Ordinance 35-2017 does not establish a permitted density for such facilities and does not require the use of PDCs for densities in excess of eight units per acre, both of which are required by N.J.A.C. 7:50-5.34 of the CMP. Therefore, Ordinance 35-2017 is not consistent with Comprehensive Management Plan standards.

The conditions for certification set forth in Attachment A to this report contain the language necessary to make Ordinance 35-2017 consistent with the CMP. These conditions include establishment of a maximum permitted density of eight units per acre for assisted living facilities in the RCD District, with the use of PDCs required for projects that exceed that permitted density. The Township could consider a number of alternatives, including the establishment of a higher permitted density, exemption of affordable units, required PDCs for a minimum

percentage of units or a different density structure entirely. The amendments set forth in Attachment A are the minimum necessary for conformance with N.J.A.C. 7:50-5.34(a)2 of the CMP.

Ordinance 35-2017 is not consistent with CMP standards for the accommodation of PDCs. However, with the adoption of the amendments set forth in Attachment A, or comparable revisions, this standard for certification will be met.

9. Referral of Development Applications to Environmental Commission

Not applicable.

10. General Conformance Requirements

Ordinance 35-2017 is fully not consistent with standards and provisions of the Pinelands Comprehensive Management Plan.

With the adoption of the amendments set forth in Attachment A, or comparable revisions, this standard for certification will be met.

11. Conformance with Energy Conservation

Not applicable.

12. Conformance with the Federal Act

No special issues exist relative to the Federal Act. However, Ordinance 35-2017 is not consistent with standards and provisions of the Pinelands Comprehensive Management Plan.

With the adoption of the amendments set forth in Attachment A, or comparable revisions, this standard for certification will be met.

13. Procedure to Resolve Intermunicipal Conflicts

Not applicable.

PUBLIC HEARING

A public hearing to receive testimony concerning Egg Harbor Township's application for certification of Ordinance 35-2017 was duly advertised, noticed and scheduled to be held on March 7, 2018 at the Richard J. Sullivan Center, 15C Springfield Road, New Lisbon, New Jersey at 9:30 a.m. However, due to inclement weather and the closure of all State offices on March 7, 2018, the public hearing was canceled and rescheduled. The hearing was subsequently duly advertised, noticed and held on March 28, 2018 at the Richard J. Sullivan Center, 15C Springfield Road, New Lisbon, New Jersey at 9:30 a.m. Ms. Grogan conducted the hearing, at which no testimony was received.

Written comments on Ordinance 35-2017 were accepted through April 4, 2018. However, no written comments were received.

CONCLUSION

Based on the Findings of Fact cited above, the Executive Director has concluded that Ordinance 35-2017 is not fully consistent with the standards and provisions of the Pinelands Comprehensive Management Plan. Accordingly, the Executive Director recommends that the Commission issue an order to conditionally certify Egg Harbor Township Ordinance 35-2017.
