

## Scope and Purpose

- (a) A New Jersey nursery or plant dealer is permitted to make application to the New Jersey Department of Agriculture for use of the “Jersey Native Plants” logo if they satisfy the following:
1. A New Jersey nursery or plant dealer of nursery stock, or plant material of species that are native to New Jersey, who is certified pursuant to N.J.A.C. 2:16 to sell or distribute nursery stock, or plant material.
  2. A New Jersey registered wholesale seedsman pursuant to N.J.S.A 4:817.17a that sells seeds of plant species native to New Jersey.

## Definitions

For the purposes of this subchapter, the following words and terms shall have the following meanings unless the context clearly indicates otherwise.

“Certification” means the act, by a duly authorized regulatory official of the Department, of affirming, declaring, or verifying compliance with nursery inspection, pest freedom, plant registration or certification, or any other set of legal requirements.

"Certificate" means a document authorized or prepared by a duly authorized Federal or State regulatory official that affirms, declares, or verifies that an article, nursery stock, plant, product, shipment or any other officially regulated article meets phytosanitary (quarantine), nursery inspection, pest freedom, plant registration or certification, or other set of legal requirements (N.J.S.A. 4:7-15 et seq.).

“Native Plant” plant species listed in N.J.A.C. 2:71-10.5.

“Nursery” means any location where nursery stock is grown, propagated, stored, or sold; or any location from which nursery stock is distributed direct to a customer.

"Nursery Certificate" is a document issued by the Department indicating that the nursery stock was inspected pursuant to N.J.S.A. 4:7-15 et seq. and certified to be apparently free of dangerously injurious insects, highly invasive weed plants and plant diseases. The certificate is valid for one calendar year or until a subsequent inspection finds infestation of dangerously injurious plant pests or diseases.

“Nursery Stock” means all plants, trees, shrubs, and vines grown for sale, as well as grafts, cuttings, and buds and other parts of plants that may be sold for propagation, whether cultivated or wild; but shall not include herbaceous annuals or plants, flowers, vines or cuttings grown under glass and commonly known as florists' stock.

“Plant Dealer” is a person or firm who purchases nursery stock from certified nurserymen and offers that stock for sale at a retail outlet or through landscaping services.

“Plant Material” includes any part of a plant, tree, aquatic plant, plant product, plant material, shrub, vine, fruit, rhizome, vegetable, seed, bulb, stolon, tuber, corm, pip, cutting, scion, bud, graft, or fruit pit.

“Plant Pest” includes, but is not limited to: any pest of plants, agricultural commodities, crop seed, farm products, horticultural products, nursery stock, or non-cultivated plants. This includes, but is not limited to: insects, snails, nematodes, fungi, viruses, bacterium, microorganisms, mycoplasma like organisms, weeds, plants, or parasitic higher plants.

"Retail seedsman" means a person who is engaged in the sale in the ordinary course of business of agricultural, vegetable, flower, tree or shrub seed which is used for planting purposes and is not intended for resale.

“Secretary” means the Secretary of the State of New Jersey Department of Agriculture or his or her designee.

“Seed Mix” means seeds consisting of more than one kind or variety.

“Sell” means an offer for sale, expose for sale, possess for sale, exchange, barter, or trade.

"Wholesale seedsman" means a person who sells, offers for sale, exposes for sale or transports for sale, to a retail seedsman, agricultural, vegetable, flower, tree or shrub seed used for planting purposes.

### **Use of the “New Jersey Native Plants” Logo**

- (a) The New Jersey Department of Agriculture approves the use of “Jersey Native Plants” in conjunction with the New Jersey map symbol under the provisions of N.J.S.A. 4:10-5 and 4:10-15 as an official emblem for identifying plant species native to New Jersey.
- (b) Persons, firms, partnerships, corporations, or associations must first obtain a valid nursery or plant dealer certificate, issued by the Division of Plant Industry pursuant to N.J.A.C. 2:16, and/or be registered as a seedsman pursuant to N.J.S.A 4:817.17a, before applying to utilize the “Jersey Native Plants” logo on plant material, nursery stock, or seeds of species native to New Jersey pursuant to N.J.A.C 2:71-10.5.
- (c) Only those persons, firms, partnerships, corporations, or associations licensed to use the “Jersey Native Plants” logo shall be permitted to attach or have it imprinted upon any documents related to their nursery stock, plant material, or to employ its use in advertising or in any manner whatsoever. Layout of proposed advertising to be used for the marketing of “Jersey Native Plants” plants and nursery stock shall be submitted for approval to the Division of Marketing and Development, New Jersey Department of Agriculture, in advance of their manufacture and use.
- (d) Any person, firm, partnership, corporation, or associations wishing to employ the “Jersey Native Plants” logo in marketing plant materials, nursery stock, or seed shall make application to the New Jersey Department of Agriculture for a license to do so. The application shall be made in writing, upon a form provided by the Department for this purpose. The application shall reveal the name, address, nursery or plant dealer certificate

of the user, the plant species native to New Jersey for which the user is seeking a license and other such information as is deemed necessary for the enforcement of the “Jersey Native Plants” program. The Department will hold confidential any information provided in the application that constitutes proprietary commercial or financial information, or is otherwise protected from disclosure under the Open Public Records Act, N.J.S.A. 4:1A-1 et seq., subject to the limitations set forth therein.

- (e) All applications approved for issuance of license shall have the license granted for the period of one year commencing on March 1. Licenses shall be renewed annually upon application filed with the Department 45 days prior to the expiration date of the license.
- (f) A non-refundable fee of \$50.00 shall accompany the application form and shall be made payable to the New Jersey Farm Products Publicity Fund.
- (g) When a license holder discontinues use of the “Jersey Native Plants” logo, fails to renew their license when required or has their license revoked, they shall be prohibited from its use in any manner, including, but not limited to stationery, forms, advertising on billboards or other signs or on trucks or car panels.
- (h) The configuration of the “Jersey Native Plants” logo is as follows:

- (i) Any licensed nursery or plant dealer using the “Jersey Native Plants” logo for nursery stock or plant material without satisfying the applicable requirements set forth in this section, any unlicensed or uncertified producer or grower using the “Jersey Native Plants” logo or anyone violating any provision of shall be subject to a penalty of not more than \$100.00 for the first offense and not more than \$200.00 for each subsequent offense, except for violations of N.J.S.A. 4:10-5, which penalty shall be \$100.00. Whenever an offense involves false, misleading, or improper labeling of farm products, each package shall constitute a separate offense.
- (j) After the second violation of any part of this subchapter by the same licensed nursery or plant dealer during the same calendar year, the license to use the “Jersey Native Plants” logo shall be revoked for the remainder of the license year.
- (k) The Division of Marketing and Development shall make an initial determination as to whether to deny any initial license, or revoke a license as provided in subsections (i) and (j) of this section.
- (l) Any applicant who is aggrieved by the determination of the Division of Marketing and Development pursuant to (k) above, shall, upon written request transmitted to the Department within 20 days of the license denial, or notice of intent to revoke a license, be afforded the opportunity for a hearing thereon in the manner provided for contested cases pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.
  - 1. Requests for hearings shall be sent to Director, Division of Marketing and Development, N.J. Department of Agriculture, P.O. Box 330 Trenton NJ 08625-0330.
- (m) The State Board of Agriculture shall make a final determination as to whether to deny or revoke a license following a hearing as provided in (l) above.

- (n) Orders for penalties or to enjoin continuing violations may be collected in a civil action in a summary proceeding pursuant to the "Penalty Enforcement Law of 1999." The Superior Court and the Municipal Court shall have jurisdiction to enforce the provisions of the "Penalty Enforcement Law of 1999."
- (o) Upon revocation of license, a producer or grower may reapply for a license for the next license year.
- (p) Seeds mixes proposed to use the "Jersey Native Plants" logo must consist of 100% New Jersey native species. Mixes containing any number of nonnative species are prohibited from using the "Jersey Native Plants" logo.

### **Plant Material and Nursery Stock**

- (a) Pursuant to the authority of N.J.A.C. 1:30-2.2, the Department hereby adopts and incorporates by reference, the American National Standards Institute, "American Standard for Nursery Stock," ANSI Z60.1-1996 as the standard for the nursery stock. All nursery stock shall meet or exceed the nursery stock and plant standards set forth the American Nursery and Landscape Association ANSI Z60.1-1996.
- (b) All nursery stock, plant material, and seeds marketed under this program shall be maintained free of injurious insects and plant diseases. Pursuant to the authority of N.J.A.C. 1:30-2.2, the Department hereby adopts and incorporates by reference, as amended and supplemented, the Rutgers Cooperative Extension publications "Pest Control Recommendations for Shade Tree and Commercial Nursery Crops" (E036T), "Pest Control Recommendations for Commercial Flower Growers" (E038), and Insect Control Recommendations for Shade Trees and Commercial Nursery Crops, 2011" (E334) for use as guides by New Jersey plant and nursery stock producers to ensure freedom from injurious plant pests and diseases.
  1. Copies of the publications in this subsection are available free of charge on the Rutgers Cooperative Extension website at <http://njaes.rutgers.edu/pubs>.
  2. Copies of the publications in this subsection are on file in the Director's office-- Division of Plant Industry, New Jersey Department of Agriculture, PO Box 330, Trenton, New Jersey 08625-0330.
