Communications

Ms. Omogbai referenced the articles and items in the board packet and recommended that board members go through the articles and see how they relate to the Trust's current situation if they hadn't already. Ms. Omogbai acknowledged Carolann Clynes in the audience, who just recently retired from the Trust's Board. Ms. Omogbai conveyed the Board's appreciation for Ms. Clynes years of service to the Trust.

Ms. Omogbai thanked the staff and conference planning committee for the wonderful conference earlier in June. As always they performed a yeoman's job. Ms. Omogbai thanked Ms. Foster for her efforts and comments at conference. Ms. Omogbai also acknowledged 100% participation of the Trust Board at the conference, of which she was most appreciative and gratified.

Ms. Omogbai asked if Ms. Guzzo or the staff had a chance to review the comments of conference participants. Ms. Guzzo said that preliminary review indicated positive feedback and the opening reception was phenomenal. The difficulties with the site and hosts did not appear to affect the conference attendees. The conference broke even and we will get into the details starting next week for a more complete analysis. Ms. Guzzo also stated that she has been communicating with Middlesex County to host the conference next year. The conference would be at the community college. It all looks very positive. Our contact with the county served this past year on the conference planning committee, so he is well aware of what is necessary to put on a successful conference.

Ms. Omogbai again thanked everyone for a wonderful conference and stated that it is an important part of our mission and the community looks forward to it each year.

Approval of Minutes

Ms. Omogbai asked if anyone had comments on March's meeting minutes. There being none Mr. Lindsay made a motion to approve the minutes, seconded by Ms. Kelly. The motion passed unopposed.

Reports of Officers

Chair:

Ms. Omogbai reminded the board of its last discussion, which was a call to action regarding funding for the Trust. A plan is needed that gets the community involved and sets a parallel track for Board engagement. The challenge is that the legislation that was passed is not what the community thought it would be in terms of the amount of funding allocated to the Historic Trust compared to past funding levels. Ms. Omogbai stressed that we cannot use an ad hoc approach, we need a long term strategy. Ms. Omogbai proposed that we convene a meeting of the community. While they may know the state is struggling with trying to fund transportation, education and other areas we need to get our needs heard so we do not get lost in the cacophony of voices. Also, what can we do so that we do not have to go back every year to get funds? The Corporate Business Tax allocation for the Trust is not sufficient for our grant programs. So, if CBT is not, nor will it realistically ever be sufficient then we should not quibble over small increases here or there, we need to explore other sources of funding to supplement the CBT allocation. The two main issues to address are how to best deal with our current funding situation and how can we improve our situation in the future.

The Board should approve this convening of the community as a whole including funding for a facilitator to deal with community engagement. This should be done in advance of the Board retreat and in conjunction with Board members visiting legislative representatives to educate

them on our issues. Ms. Omogbai suggested having a one page summary or taking points so that a uniform message is conveyed. It is important to reach out and have a strong presence at the community meeting including journalists. Throughout the process it is important that everyone stay on message. We need to reach our grantees, potential grantees, decision makers, journalists, ex officio members to be part of this community meeting. Ms. Omogbai hopes that this community meeting will result in concrete actionable items that the Board can then address at the Board retreat later this year.

Ms. Guzzo stated that it looks like the meeting will take place at the Count Basie Theater in Red Bank in September, on the afternoon of the next Board meeting. A facilitator is needed who will coordinate the effort with the overall strategic plan for the Trust. Ms. Guzzo relayed that the idea for this community meeting came from two lessons she learned at a colloquium sponsored by the NJ Association of Grant Makers regarding changes since the great recession – nothing is ever going to be the same as it was before and the ones closest to the problem are the best to solve it. In our case we need to bring in our grantees and anyone who is impacted by the Trust. It is important for them to understand that this is the reality for the foreseeable future and to figure out ways for them to help.

Ms. Omogbai asked for comments from the Board.

Ms. Foster applauded bringing in the larger community; she stated that all of these people are important stakeholders and that their input is an important and key component to the Trust moving forward. The board asked what the relationship was between this community meeting and the Keep It Green (KIG) coalition. Ms. Guzzo responded that this meeting is looking at options in addition to the Corporate Business Tax funding, not a replacement, so KIG still plays an important role and can attend the community meeting. Ms. Omogbai agreed that regardless of how the CBT gets enacted, it will never provide sufficient funds for Trust programs so the Trust must look at options for additional funding sources while working to ensure passage of CBT funding. It was suggested that it might be good to meet or talk with KIG and PNJ to explain the community meeting so there is no confusion or misunderstanding of the Trust's actions.

There may be action on the legislation or possibly the legislature may try to override the Governor's veto of the CBT Legislation, so Board members should be prepared to testify at hearings if asked. It is the Board's job to educate both legislators and the public on the needs and programs of the Trust and to speak with a consistent voice. Ms. Omogbai reminded members that this is the last meeting of the Board prior to the passage of the State budget so they should be prepared to respond if asked.

Ms. Omogbai made a motion to authorize Ms. Guzzo to move forward with the community meeting, seconded by Ms. Foster. The motion passed. Ms. Omogbai made a second motion to authorize Ms. Guzzo to hire a community and strategic planning facilitator. A line item for strategic planning will be included in the FY17 NJHT budget that the Board will vote on in September. The Board asked for an estimate for cost of hiring a facilitator. Ms. Guzzo responded

that she will work to keep the costs down and hoped to hire the consultant for around \$10,000. Ms. Omogbai's motion was seconded by Ms. Salvatore. The motion passed.

Discussion continued regarding the possibility of the Legislature overriding the Governor's veto of the CBT legislation including KIG and PNJ's activities. Ms. Kelly also stated that all of these activities are laying the groundwork for the future and building relationships. There was some concern that we could become bothersome to legislators; however, it was pointed out that they do not hear enough from us and that we are informing them of Trust funded projects in their districts, which they like to hear about. Ms. Omogbai stressed the importance of educating the legislators, administration as well as our own preservation community. The proposed community meeting will be laying the foundation for these actions. Ms. Salvatore added that DMO's, Travel & Tourism folks, architects, architectural historians and other professional should be part of the community meeting. Ms. Ng asked about affiliate groups that have a shared interest. Ms. Omogbai responded that all groups should be included and if you have specific groups or people in mind you should get a list to Ms. Guzzo to invite. Ms. Guzzo stated that both the next Board meeting and the community meeting will be on September 21st. Once the location is confirmed, invitations will be sent out.

Vice Chair

No formal report.

Treasurer:

Ms. Guzzo informed the Board of Lauren Giannullo's resignation as the Trust's fiscal officer. Mr. Guzzo reported that because of the resignation there is no full Treasurer's report for this meeting. Instead Ms. Guzzo provided the Board with a fiscal update. Most of the funds allocated for DAG use will come back into the administrative account. Likewise, Treasury's release of our overhead and fridge benefit funds should also be coming back into our administrative account. Again, Trust expenses should come in under budget for the fiscal year. Ms. Guzzo and staff plan on meeting with DAC fiscal staff and will provide a complete Treasurer's report in the near future.

Ms. Omogbai asked if Ms. Giannullo's position will be backfilled. Ms. Guzzo responded that we received department approvals, but are waiting for approval from the Governor's office.

Executive Director's Report

Ms. Guzzo referenced the Executive Director's and the staff reports in the board packet. Work is continuing on the design for the heritage tourism website. Currently Trust staff and the web designers are working out details and hope to launch the site in the fall.

Ms. Guzzo outlined recent legislation that has been put up for consideration. Ms. Guzzo also relayed how Sen. Beck had suggested that the Trust remain in contact with members of the legislator, such as providing testimony, writing letters, etc. the point being to be seen and remembered by legislators. Ms. Omogbai suggested that this be added to the retreat discussion. Who better to tell our story than us. We need to keep legislators in the loop. We need to nurture relationships.

Ms. Guzzo referenced grantees' thank you letters included in the Board packet.

The new owner intended to use the property to hold events such as weddings and corporate gatherings as well as a vacation home for his family.
