¹ Some children may be served by both CP&P and CSOC and are over-represented in the final count of children served in the month.

² The definition for "Youth Open with CSOC" reflects youth who are involved and eligible to receive services through CSOC.

³ FCP measures clients served in SBYSP and DV Services. Since Family Success Centers and Home Visitation programs report data in terms of families served, each family is assumed to have at least one client.

⁴ DoW measures clients served in SAARC and Displaced Homemakers. RPE measures doses or activities provided and does not allow for an unduplicated count of clients served.

⁵ Families served by DCF includes CP&P families and FCP families. FCP families served data has a one month lag.

⁶ CSOC Children may receive multiple services and are counted multiple times.

⁷ FCP quick facts are based on new clients/families. DoW quick facts are based on new and ongoing clients/families served.

⁸ The cumulative number of human trafficking referrals between November 2013 and November 2014 was 125.

^[4] The data includes all 18-21 year olds who are active participants in an open CP&P case as of the end of the month.

^[5] The terms "out-of-home" and "in-home" may not be appropriate for all 18-21 year olds. Youth identified as "in-home" can either be residing with a parent/relative, or living independently. Any of these youth may be receiving services. These definitions are currently being reviewed to better understand how we capture DCF's work with this population. The goal of this ongoing work is to create three meaningful categories for 18-21 year olds 1) Youth in a formal out-of-home placement setting, 2) Youth that achieved permanency, and 3) Youth that never achieved permanency.

Missing information from 1 county.

DCF's Strategic Priorities for 2014-2016 include developing a data system for Family & Community Partnership and the Division on Women to ensure the timeliness, consistency and quality of data collected from providers.

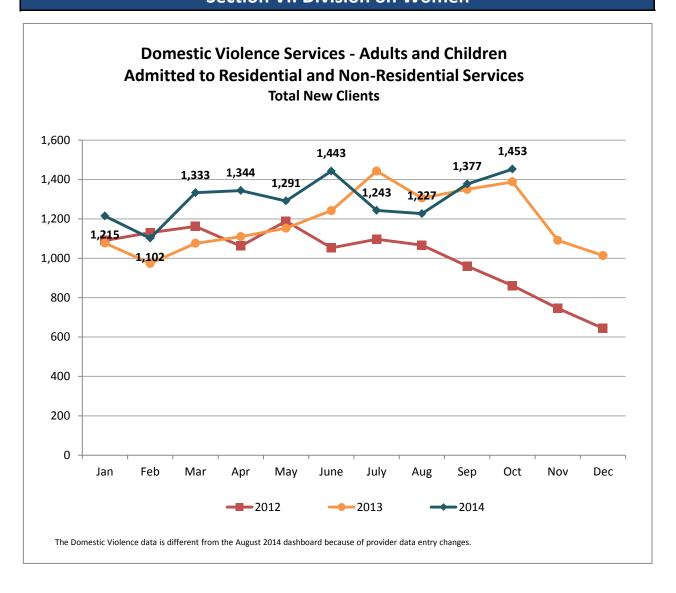

DOW reporting requirements changed for this reporting period. 3 counties did not yet submit reports. The method of calculating ongoing victims/significant others and volunteers changed, resulting in an underestimate for the quarter. This underestimate will be adjusted in a future reporting period.

RPE reporting requirements are under revision. Data for the Feb-Apr '14 & May-Jul '14 quarters will be available at a later date.

Missing information from 2 counties. In addition, there are some ongoing data quality issues. DoW Coordinators are providing TA to improve the data going forward.
