

EVALUATION OF COLLEGE CREDITS COMPLETED IN OTHER COUNTRIES

The State of New Jersey does not determine the equivalent of studies completed in other countries compared to college credits completed in the United States. A staff member educated outside this country who wishes to serve as a head teacher or group teacher in a licensed child care center may wish to consult one of the credentials evaluation agencies listed below. Fees are charged for the credentials evaluation.

If a staff member chooses to consult a credentials evaluation service, the following should be requested:

- The equivalent of studies to a bachelor's degree from a four-year college program.
- The semester-hour equivalent of each area of college-level study. Request a two-part evaluation which includes a course-by-course listing.

After receiving an equivalency recommendation, a copy of the report may be submitted to the Office of Licensing along with copies of the foreign transcripts. The Office will determine whether the staff member meets the qualifications for head teacher or group teacher, or the staff member may submit the equivalency recommendation along with the application and required documents for head teacher, group teacher or school-age program supervisor to the New Jersey Workforce Registry. For more information visit the New Jersey Child Care Information System at <https://www.njccis.com/njccis/home>.
