The agency proposal follows:

Summary

The Department of Education (Department) proposes to readopt N.J.A.C. 6A:9A, New Jersey Educator Preparation Programs, with amendments and new rules. The chapter includes the

rules governing educator preparation programs in New Jersey. As the Department filed this notice of readoption on November 10, 2022, which is prior to the existing expiration date of November 12, 2022, the chapter expiration date is extended 180 days to May 11, 2023, pursuant to N.J.S.A. 52:14B-5.1.c(2).

N.J.A.C. 6A:9, Professional Licensure and Standards, was first adopted in 2004 and readopted in 2009. The chapter set forth the rules governing the preparation, licensure, and professional development of educators required by their positions to be certified. It also included rules governing the approval of educator preparation programs and their content. Finally, it contained the rules delineating the organization of, powers of, duties of, and proceedings before the State Board of Examiners. On August 4, 2014, the chapter was recodified into four chapters – N.J.A.C. 6A:9, 6A:9A, 6A:9B, and 6A:9C – through a notice of administrative changes (see 46 N.J.R. 1743(a)). At that time, N.J.A.C. 6A:9A was titled New Jersey Educator Preparation Programs, as it includes only rules related to educator preparation programs. The chapter was most recently readopted in 2015 (see 47 N.J.R. 2982(a)).

Existing N.J.A.C. 6A:9A sets forth the process by which the Commissioner of Education (Commissioner) approves programs that prepare candidates to obtain the certificate needed to be employed as teachers, administrators, or educational services personnel in New Jersey’s public schools, including charter schools and renaissance school projects, and in approved private schools for students with disabilities. Referred to throughout the chapter as “educator preparation programs,” these programs provide the training and support that candidates need to meet the requirements for a certificate of eligibility with advanced standing (CEAS) or a certificate of eligibility (CE). For an instructional certificate, the CEAS allows certificate holders who have completed educator preparation programs as part of their bachelor’s or higher degree to seek and

obtain employment in a school. The CE allows certificate holders who have not completed educator preparation programs to seek and obtain employment while completing the pre-professional requirements and subsequent educator preparation program. The chapter provides the minimum requirements for entry into an educator preparation program, program completion, and program structure and content to prepare candidates for educator certification.

The amendments and new rules proposed at N.J.A.C. 6A:9A in this rulemaking and at N.J.A.C. 6A:9, 6A:9B, and 6A:9C in separate, simultaneous rulemakings are intended to provide options to certain candidates for an instructional certificate. The proposed amendments and new rules will implement a number of recently enacted State laws that created new endorsements for instructional certificates or altered the requirements for existing endorsements, including the following:

- P.L. 2013, c. 68, which created pathways for military spouses to earn a certificate through reciprocity;
- P.L. 2017, c. 6, which requires educator preparation programs that lead to an instructional certificate to include instruction or clinical experience in special education and credit hours in autism spectrum disorder for the teacher of students with disabilities endorsement;
- P.L. 2017, c. 70, which revised the requirements for the school nurse endorsement;
- P.L. 2018, c. 81, which authorized the computer science endorsement to the instructional certificate;
- P.L. 2021, c. 57, which established the Alternate Route Interstate Reciprocity Pilot Program;
- P.L. 2021, c. 87, which revised the substitute credential requirements;
- P.L. 2021, c. 279, which established the early college high school program

endorsement to the instructional certificate; and

- P.L. 2021, c. 420, which required alternative measures for candidates for the career and technical education endorsement to demonstrate basic skills.

Coupled with the recently adopted rules at N.J.A.C. 6A:9B-8A to create a five-year pilot program to issue limited certificates of eligibility (limited CE) or limited certificates of eligibility with advanced standing (limited CEAS) to eligible candidates to work in participating school districts, the Department anticipates that the proposed amendments and new rules to all four chapters will encourage more individuals to apply for an instructional certificate, while maintaining the high quality of the State's teacher workforce. The proposed changes to the State's system of educator preparation, certification, mentoring, and professional development also will help alleviate existing teacher shortages that have been amplified by the COVID-19 pandemic and will further the Department's efforts to increase diversity in the education workforce. The proposed amendments and new rules at N.J.A.C. 6A:9A will clarify Department expectations of educator preparation programs, create additional options for candidates to meet program entry requirements, and develop pathways for certified teachers to add additional endorsements in mathematics and science.

Unless specified in this Summary, all amendments are proposed for clarity, for stylistic or grammatical improvement, to eliminate gendered pronouns, or to update cross-references to the New Jersey Administrative Code or New Jersey Statutes Annotated.

Subchapter 1. Scope and Purpose

N.J.A.C. 6A:9A-1.1 Scope

This section provides the chapter's scope. The chapter sets forth the rules governing the approval of CEAS and CE educator preparation programs and their content, as well as the rules governing the preparation of educators and candidates that is required for certification.

N.J.A.C. 6A:9A-1.2 Purpose

This section provides the chapter's purpose, which is to establish a system of educator preparation programs that continuously serve to improve the quality of instruction for New Jersey's children. The educator preparation programs function along a continuum of rigorous pre-professional preparation, certification, and professional development to prepare educators to support improved student achievement of the New Jersey Student Learning Standards (NJSLs).

Subchapter 2. Definitions

N.J.A.C. 6A:9-2.1 Definitions

This section provides that the definitions at N.J.A.C. 6A:9-2.1 also apply to this chapter.

Subchapter 3. Educator Preparation Program Approval

This subchapter sets forth the criteria for educator preparation programs and the process by which the Commissioner approves an educator preparation program.

N.J.A.C. 6A:9A-3.1 Approval Criteria of Educator Preparation Programs

This section authorizes the Commissioner to approve all educator preparation programs designed to lead to State certification, including: educator preparation programs from higher education institutions chartered in the State and programs that have a physical presence in New Jersey, but are run by out-of-State institutions that are approved by the New Jersey Secretary of

Higher Education; and educator preparation programs established by educational organizations, school districts or consortia, or Commissioner-approved entities. This section also sets forth the criteria for the Commissioner's approval of an educator preparation program, as well as specific accrediting agencies accepted by the Commissioner for educator preparation program approval. This section further allows the Commissioner to consider data and performance evidence from a program provider's operating educator preparation program before approving a new program by the same program provider.

The Department proposes to delete the requirements that a program is accredited through NCATE, TEAC, or CAEP, as NCATE and TEAC no longer exist. To avoid specifying an accreditor, as accreditor names or recognition status may change, the Department proposes adding "programmatic" before "accreditation body" and "or the United States Department of Education" before "or approved by the Commissioner" to allow accepting programmatic accreditation bodies vetted and recognized by the United States Department of Education or Council for Higher Education Accreditation. This creates additional credible options for educator preparation program providers.

Proposed new N.J.A.C. 6A:9A-3.2 The State Program Approval Council

The Department proposes to recodify existing N.J.A.C. 6A:9A-3.2(b) as new N.J.A.C. 6A:9A-3.2, The State Program Approval Council. The new section states that the Commissioner shall appoint a State Program Approval Council (Council) comprised of no more than 11 members who shall serve two-year, renewable terms. The section requires the Council to be comprised as follows: four representatives from approved CEAS educator preparation programs; three representatives from approved CE educator preparation programs; and four educators from preschool through grade 12 schools. This section also states the Commissioner shall consult the

Council on matters pertaining to the quality of educator preparation programs designed to lead to an instructional certificate as required for teachers, pursuant to N.J.A.C. 6A:9B-8, an administrative certificate as required for administrators, pursuant to N.J.A.C. 6A:9B-12, and an educational service certificate as required for educational service personnel, pursuant to N.J.A.C. 6A:9B-14.

N.J.A.C. 6A:9A-3.2 Approval Process for Educator Preparation Programs

The Department proposes to recodify existing N.J.A.C. 6A:9A-3.2 as N.J.A.C. 6A:9A-3.3.

This section states that the Commissioner has the authority and discretion to approve all new or substantially revised educator preparation programs. This section also requires the Commissioner to consider the Council's analysis of a proposed educator preparation program and recommendation for approval. This section further requires all new or substantially revised educator preparation programs to secure Commissioner approval prior to implementation and requires the Commissioner to re-approve all educator preparation programs at least every seven years.

The Department proposes to amend recodified N.J.A.C. 6A:9A-3.3(c), which states the Commissioner shall re-approve all educator preparation programs at least every seven years and has the authority and discretion to periodically review and re-approve educator preparation programs more frequently at their discretion. The Department proposes to replace "shall" with "may" because the Commissioner has the discretion not to re-approve a program. The same amendment is proposed at recodified N.J.A.C. 6A:9A-3.3(d).

The Department proposes to amend recodified N.J.A.C. 6A:9A-3.3(e)2, which requires the Commissioner's periodic review of educator preparation programs to include, but not be limited to, the numbers of educator candidates prepared in teacher shortage areas and from diverse backgrounds. The Department proposes to delete "and from diverse backgrounds," because proposed

new N.J.A.C. 6A:9A-3.3(e)8 will require the Commissioner’s review to include the number of educator candidates from diverse backgrounds as evidenced by ethnicity, race, and gender.

The Department proposes to amend recodified N.J.A.C. 6A:9A-3.3(e)7, which requires the Commissioner’s periodic review to consider preschool through grade 12 student achievement data, when relevant. The Department proposes to add “available and” before “relevant” because achievement data may not be readily available during the Commissioner’s periodic review of the educator preparation program.

The Department proposes new N.J.A.C. 6A:9A-3.3(e)9 to require all approved educator preparation programs to provide the Department with evidence that demonstrates the comprehensive pedagogical content knowledge preparation necessary to integrate literacy into all content areas and support the implementation of the NJSLS. Including the provision at recodified N.J.A.C. 6A:9A-3.3(e) also will ensure that all new educator preparation programs provide the required evidence during the Commissioner’s review of the program, pursuant to N.J.A.C. 6A:9A-3.1(b)4. New N.J.A.C. 6A:9A-3.3(e)9 aligns with the Department’s focus on providing effective literacy instruction for all students. It is essential that all teachers are prepared to support literacy development of students by incorporating literacy in all content areas.

Subchapter 4. CEAS Educator Preparation Programs

N.J.A.C. 6A:9A-4.1 CEAS Educator Preparation Program

This section provides an overview of the requirements, procedures, and components of CEAS educator preparation programs to ensure specific procedures and components are met prior to program approval.

N.J.A.C. 6A:9A-4.2 CEAS Educator Preparation Program Course Requirements

This section requires a CEAS educator preparation program designed to lead to instructional certificates to include a curriculum devoted to educator preparation that builds upon the content knowledge and skills of the individual candidate; a clinical component aligned with the Professional Standards for Teachers; and clinical experiences incorporated into courses leading up to, and including, clinical practice.

The Department proposes to amend N.J.A.C. 6A:9A-4.2(a)1, which requires the CEAS educator preparation program designed to lead to instructional certificates to include a curriculum devoted to educator preparation that builds upon the content knowledge and skills of the individual candidate. The Department proposes to replace “curriculum” with “sequence of courses that is” to align terminology used at N.J.A.C. 6A:9B-9, 10, and 11 to describe coursework requirements for an instructional certificate.

N.J.A.C. 6A:9A-4.3 Admission to CEAS Educator Preparation Programs

This section requires a candidate who starts a CEAS educator preparation program in or after academic year 2015-2016 to meet the section’s GPA and basic skills requirements. This section also requires a candidate to have a bachelor’s or higher degree.

The Department proposes to amend N.J.A.C. 6A:9A-4.3(a), which states that a candidate who starts a CEAS educator preparation program in or after academic year 2015-2016 shall be admitted only if the candidate meets the GPA and basic skills requirement at N.J.A.C. 6A:9A-4.3(b) and (d). The Department proposes to delete “in or after academic year 2015-2016” because the implementation date has passed.

The Department proposes to delete N.J.A.C. 6A:9A-4.3(b)2, which requires a candidate admitted to a CEAS educator preparation program that starts in an academic year prior to 2015-2016, to maintain, for the first two years of college, an individual cumulative GPA of at least 2.50 when a grade point of 4.00 equals an A grade. The regulation is no longer necessary because the cohorts of candidates associated with admission into a CEAS educator preparation program prior to academic year 2015-2016 are no longer enrolled in any CEAS educator preparation program.

The Department proposes to delete N.J.A.C. 6A:9A-4.3(d)1, which allows educator preparation programs to determine how a candidate admitted to a program that starts before the academic year 2015-2016 is required to demonstrate acceptable levels of proficiency in the use of the English language, both oral and written, and mathematics. The regulation is no longer necessary because the candidate cohorts associated with an educator preparation program prior to academic year 2015-2016 are no longer enrolled in any CEAS educator preparation program.

The Department proposes to amend recodified N.J.A.C. 6A:9A-4.3(d)1i, which requires the Department to maintain on its website a list of qualifying minimum scores on the SAT, ACT, or GRE for proficiency of English language and mathematics. The rule also states that the minimum scores shall be approximately equal to the top-third percentile score for all test takers in the year the respective test was taken, for each year the data is available. The Department proposes to replace “top-third” with “top-half,” to better align with the qualifying scores of the Praxis Core, which is the Commissioner-approved assessment of basic reading, writing, and mathematics proficiency. Recent research confirms that scoring in the top-half percentile for the SAT, ACT, or GRE is comparable to the established minimum score on the Commissioner-approved test of basic reading, writing, and mathematics skills.

The Department proposes to delete existing N.J.A.C. 6A:9A-4.3(d)2ii, which allows a candidate to qualify for an exception to the Commissioner-approved test of basic reading, writing, and mathematics skills, if the candidate achieves at least a minimum qualifying score posted pursuant to existing N.J.A.C. 6A:9A-4.3(d)2i. Existing N.J.A.C. 6A:9A-4.3(d)2ii is no longer necessary because the exemption is already stated at recodified N.J.A.C. 6A:9A-4.3(d)1.

The Department proposes new N.J.A.C. 6A:9A-4.3(d)2 to allow a candidate who starts a CEAS educator preparation program in or after academic year 2022-2023 and takes the Commissioner-approved test of basic reading, writing, and mathematics skills, but does not meet the minimum score established by the Department or the exceptions at N.J.A.C. 6A:9A-4.3(d)1 to demonstrate proficiency in the use of the English language and/or mathematics by holding a master's degree, or an advanced or higher degree, from an accredited institution of higher education with a minimum GPA of 3.0. The proposed new regulation will provide flexibility for candidates enrolling in CEAS educator preparation programs, while maintaining candidate quality.

N.J.A.C. 6A:9A-4.4 Clinical Component and Candidate Supervision for CEAS Educator Preparation Programs

This section sets forth the requirements for the clinical component of CEAS educator preparation programs. The section describes the gradual release of responsibility and increased rigor of the clinical aspects of the program. Clinical experience is the diverse, guided, hands-on, practical applications and demonstrations in educator preparation programs of professional knowledge, skills, and dispositions through integrated, collaborative, and facilitated learning and practice in early field, practicum, and other opportunities that occur prior to clinical practice. The activities and responsibilities take place across a variety of settings and are integrated throughout the educator preparation program. Clinical practice is the culminating field-based experience or

internship. In this hands-on experience in a preschool through grade 12 setting, candidates demonstrate their knowledge, skills, and dispositions to be effective educators.

The Department proposes to amend N.J.A.C. 6A:9A-4.4(a)1, which requires all candidates starting clinical practice, in academic year 2018-2019, or thereafter, to have completed at least 50 hours of clinical experiences in a preschool, elementary, middle, and/or secondary school setting prior to clinical practice. The Department proposes to delete “in academic year 2018-2019, or thereafter,” because the academic year has passed and the regulation applies to all subsequent cohorts.

The Department proposes to delete N.J.A.C. 6A:9A-4.4(a)1i, which allows educator preparation programs to determine acceptable levels of teaching proficiency in junior clinical experiences, for candidates who started clinical practice prior to academic year 2018-2019. The provision is no longer necessary because candidates who started clinical practice prior to academic year 2018-2019 have already been assigned to and completed clinical practice.

The Department proposes to delete N.J.A.C. 6A:9A-4.4(b), which stated the clinical practice is one semester for candidates who started clinical practice before academic year 2018-2019. The provision is no longer necessary because candidates who started clinical practice prior to academic year 2018-2019 have already been assigned to and completed clinical practice.

The Department proposes to amend recodified N.J.A.C. 6A:9A-4.4(b), which sets forth clinical practice requirements for candidates starting clinical practice in academic year 2018-2019, or thereafter. The Department proposes to delete “[f]or candidates starting clinical practice in academic year 2018-2019, or thereafter” because candidates who started clinical practice prior to academic year 2018-2019 have already been assigned to and completed clinical practice.

N.J.A.C. 6A:9A-4.5 Recommendations for a Certificate of Eligibility with Advanced Standing (CEAS)

This section requires approved CEAS educator preparation programs to recommend to the Department for certification only candidates who have completed the CEAS educator preparation program and all requirements, pursuant to N.J.A.C. 6A:9B-8 through 13 or the specified exemptions. The candidates also must have demonstrated continued competence, aptitude, motivation, and potential for outstanding success in educating students. This section further requires CEAS educator preparation programs to recommend a candidate for certification within one year from the date the candidate completed the approved program.

N.J.A.C. 6A:9A-4.6 Post-Baccalaureate and Graduate-Level Educator Preparation Programs

This section requires an educator preparation program at a post-baccalaureate or graduate level, including a State-approved Master of Arts in Teaching (MAT), to meet all of the requirements at Subchapters 3 and 4. This section also exempts from the clinical component at N.J.A.C. 6A:9A-4.4, a candidate who completes one of the following experiences: a prior clinical practice experience through a CEAS educator preparation program; a standard instructional certificate; or at least one year of effective teaching under a valid in- or out-of-State license or certificate.

Subchapter 5. CE Educator Preparation Programs

N.J.A.C. 6A:9A-5.1 CE Educator Preparation Program Implementation

This section requires approved CE educator preparation programs to follow the subchapter's requirement. This section also sets forth the procedures and components that CE educator preparation programs must develop.

N.J.A.C. 6A:9A-5.2 Admission to CE Educator Preparation Programs

This section sets forth the requirements for candidates to be admitted into CE educator preparation programs.

The Department proposes to delete N.J.A.C. 6A:9A-5.2(b)1, which allows CE educator preparation programs enrolling candidates for academic years prior to 2017-2018 to operate under existing agreements between the Department and the alternate-route educator preparation program or provider. The provision is no longer applicable.

N.J.A.C. 6A:9A-5.3 Pre-Professional Component of CE Educator Preparation Programs

This section stipulates the pre-professional requirements that CE candidates must complete prior to beginning a full-time professional teaching experience.

The Department proposes to amend N.J.A.C. 6A:9A-5.3(a), which requires the CE educator preparation program to ensure that candidates starting the program in academic year 2017-2018, or thereafter, complete 50 hours of pre-professional experience prior to the candidate's full-time professional teaching experience. The subsection also requires the 50 hours of pre-professional experience to include: 15 hours of coursework; 20 hours of clinical experiences, which must include at least 10 hours of planning and delivering instruction through an individual or co-teaching model; and 15 hours determined by the program that may include, but is not limited to, additional hours of coursework and clinical experiences. The Department proposes to delete "[e]ffective for candidates starting" before "the CE educator preparation

program” and “in academic year 2017-2018, or thereafter,” after the phrase because the date has passed and the regulation applies to all candidate cohorts. The proposed amendments will require the CE educator preparation program to establish the criteria for the 50 hours of pre-professional experience instead of ensuring that the experience meets the criteria at existing N.J.A.C. 6A:9A-5.3(a)1 through 3, which are proposed for deletion. The proposed amendments acknowledge the expertise of CE educator preparation programs and will allow them to design programs and allocate hours, accordingly.

The Department proposes to delete N.J.A.C. 6A:9A-5.3(b), which requires a candidate starting a CE educator preparation program prior to academic year 2017-2018 to have completed at least 24 hours of study prior to the candidate’s full-time professional teaching experience. The provision no longer is necessary because the academic year has passed and the program component has already been phased out.

N.J.A.C. 6A:9A-5.4 Additional Curriculum and Course Requirements for CE Educator Preparation Programs

This section sets forth the curriculum and course requirements for CE educator preparation programs.

The Department proposes an amendment at N.J.A.C. 6A:9A-5.4(a)1i, which allows a CE educator preparation program to accept, at its discretion, up to 100 out of the total 350 formal instruction hours, or up to six semester-hour credits from another approved educator preparation program. The Department proposes to delete “at its discretion” after “accept” to eliminate redundancy, as “may” already indicates that educator preparation programs have discretion in this matter.

The Department proposes to delete N.J.A.C. 6A:9A-5.4(b), which sets forth the process for candidates starting a CE educator preparation program prior to academic year 2017-2018.

The subsection is no longer needed because any candidate enrolled in the program prior to academic year 2017-2018 has completed the program.

N.J.A.C. 6A:9A-5.5 Completion of CE Educator Preparation Program

This section sets forth the requirements for candidates to complete a CE educator preparation program. This section also allows a candidate who fails to complete the CE educator preparation program after two years to renew the candidate's provisional certificate and either remain in the candidate's current program or apply and be accepted to a new CE educator preparation program.

The Department proposes to amend N.J.A.C. 6A:9A-5.5(a), which requires a candidate completing a CE educator preparation program to complete the minimum hours of instruction, pursuant to N.J.A.C. 6A:9A-5.4, and to pass a Commissioner-approved performance assessment, if the candidate began a program in academic year 2017-2018, or thereafter. The Department proposes to add “[c]omplete the requirements for the pre-professional experience, pursuant to N.J.A.C. 6A:9A-5.3,” as new N.J.A.C. 6A:9A-5.5(a)1 to ensure that candidates completing a CE educator preparation program have met the criteria at N.J.A.C. 6A:9A-5.3. The Department proposes, at recodified N.J.A.C. 6A:9A-5.5(a)2, to delete “[e]ffective for candidates who begin a program in academic year 2017-2018, or thereafter” because any candidate now completing a CE educator preparation program will have enrolled after academic year 2017-2018.

The Department proposes new N.J.A.C. 6A:9A-5.5(c) to allow a CE educator preparation program one year from the date a candidate completes the approved program to recommend the candidate to the Department for issuance of a certificate. The proposed amendment will ensure that candidates applying for certification complete the current program as approved and avoid a delay in the candidate's attainment of the CE in the event of eligibility status changes.

N.J.A.C. 6A:9A-5.6 CE Educator Preparation Programs for Documented Areas of Teacher Shortage

This section presently allows CE educator preparation programs to be developed to serve school districts to place teachers in documented areas of teacher shortage. This section also states that CE programs may be established by New Jersey colleges and universities, educational organizations, or other entities approved by the Commissioner. This section further establishes the requirements for CE educator preparation programs for documented areas of teacher shortage to be approved by the Commissioner and for candidates seeking admission into the programs.

The Department proposes to change the heading of this section to “Add-on endorsement programs for mathematics and science.” The current heading does not capture the intent of these specialized programs, which were designed for certified teachers to gain content knowledge in high-need subject areas and not new teachers seeking a CE through the existing pathway. The Department proposes to change the purpose of this section to allow existing approved educator preparation programs within New Jersey colleges and universities, educational organizations, or other entities approved by the Commissioner to establish add-on endorsement programs designed to prepare current certified teachers to earn a CE in mathematics and/or science.

The Department proposes to amend N.J.A.C. 6A:9A-5.6(a), which allows CE educator preparation programs to be developed to serve school districts to place teachers in documented areas of teacher shortage and to be established by New Jersey colleges and universities, educational organizations, or other entities approved by the Commissioner. The Department proposes to amend the rule to, instead, allow the specified entities to establish add-on endorsement programs designed to prepare certified teachers in mathematics and/or science. The proposed amendments will align the section to its new purpose.

The Department proposes to delete N.J.A.C. 6A:9A-5.6(b), which allows the Commissioner to approve CE educator preparation programs for middle school subject-matter specialization in any documented area of teacher shortage and for preschool through grade 12 in any documented area of teacher shortage. The proposed deletion will align the section to its new purpose.

The Department proposes to recodify existing N.J.A.C. 6A:9A-5.6(c), which allows the Commissioner to approve CE educator preparation programs that meeting all requirements at N.J.A.C. 6A:9A-3, as N.J.A.C. 6A:9A-5.6(b). The Department proposes to replace “CE educator preparation programs” with “educator preparation programs for add-on endorsement programs for currently certified teachers.” The Department also proposes to add “in this subchapter or at” before “N.J.A.C. 6A:9A-3” and to add “with the exception of N.J.A.C. 6A:9A-3.1(b)2” at the end. The proposed amendments will align the section to its new purpose.

The Department proposes amendments at recodified N.J.A.C. 6A:9A-5.6(b)1, which requires programs approved pursuant to the section to demonstrate to the Commissioner evidence the program provides content-specific courses and content-based pedagogy that prepare a candidate to teach in the subject area that the candidate is or will be teaching. Proposed amendments at N.J.A.C. 6A:9A-5.6(b)1 stipulates that the requirement is in addition to the documentation demonstrating alignment to, and compliance with, this chapter. The Department proposes to delete “demonstrate to the Commissioner evidence of the program” because it is repetitive of recodified N.J.A.C. 6A:9A-5.6(b). The Department also proposes to delete “and content-based pedagogy” and to replace “subject that he or she is or will be teaching” with “endorsement area.” The proposed amendments will align the section to its new purpose.

The Department proposes to delete existing N.J.A.C. 6A:9A-5.6(d), which enables the Commissioners to approve a CE educator preparation program as long as the specified admission

criteria for candidates are met. The Department also proposes to delete existing N.J.A.C. 6A:9A-5.6(e), which allows subject-specific coursework for the teacher shortage area to be applied to the minimum 50 hours of pre-professional and/or 350 formal instructional hours required, pursuant to N.J.A.C. 6A:9A-5.4. The subsections are proposed for deletion because the Department will no longer consider these programs CE educator preparation programs for teacher shortages.

The Department proposes new N.J.A.C. 6A:9A-5.6(c) to set forth the minimum requirements for candidates entering an add-on endorsement program for mathematics or science approved pursuant to the section. Proposed new N.J.A.C. 6A:9A-5.6(c)1 and 2 will require candidates to hold a valid New Jersey CEAS or standard instructional certificate and demonstrate at least two years of successful teaching under a valid New Jersey or out-of-State equivalent instructional certificate.

The Department proposes new N.J.A.C. 6A:9A-5.6(d) to set forth the criteria for educator preparation programs seeking Commissioner approval for add-on endorsement programs for mathematics and science. The criteria include holding Commissioner approval to operate a program pursuant to this subchapter prior to September 1, 2022, because the proposed amendments will apply to existing programs and are not intended to apply to new programs without experience in preparing certified teachers for additional endorsements. Additional criteria for Commissioner approval include ensuring coursework requirements for the endorsement area, pursuant to N.J.A.C. 6A:9B-10 and 11, are met; requiring candidates for an add-on mathematics or science endorsement enrolled in the program to successfully complete a minimum of six credits in the new content area prior to recommending a candidate for a CE in the new content area; providing content-specific mentoring and support for candidates for the duration of the provisional period; and ensuring successful candidates meet all requirements for a

standard certificate, including minimum number of required content credits or equivalent hours, which may include content-based pedagogy.

The Department proposes new N.J.A.C. 6A:9A-5.6(e) to establish the data that an educator preparation program approved pursuant to this section must report to the Commissioner annually in a Commissioner-prescribed format. The data must include: candidate certification area, tracking number, race, gender, date of birth, employing school district, position, and teaching subject area; field experience location/school district, start and end dates, courses taught, hours completed, observations, and success rate; mentoring data; successful completion rate; standard certificate status of completers; content knowledge assessment pass rate; and retention rate.

Proposed N.J.A.C. 6A:9A-5.7 CE Educator Preparation Programs Participating in the Alternate Route Interstate Reciprocity Pilot Program

The Department proposes new rules at N.J.A.C. 6A:9A-5.7 to effectuate P.L. 2021, c. 57, which authorized the development of a five-year pilot program for issuance of a CE for out-of-State candidates who enroll in the pilot program. The proposed new rules will offer a pathway to individuals from out-of-State who have not completed an approved educator preparation program to enroll in a New Jersey-approved program, which may broaden the pool of qualified educators.

Proposed N.J.A.C. 6A:9A-5.7(a) allows the Department to issue a CE to out-of-State candidates who enroll in the Alternate Route Interstate Reciprocity Pilot Program, which may result in a standard certificate to eligible candidates.

Proposed N.J.A.C. 6A:9A-5.7(b) allows interested CE educator preparation programs to develop and establish programs and procedures for admission of candidates into the Alternate Route Interstate Reciprocity Pilot Program.

Proposed N.J.A.C. 6A:9A-5.7(c) sets forth the criteria for an educator preparation program to participate in the Alternate Route Interstate Reciprocity Pilot Program. The criteria include the following: meeting all of the requirements for a CE educator preparation program, pursuant to N.J.A.C. 6A:9A-5.1, 5.3, 5.4, 5.5, and 5.6; meeting all of the requirements for accreditation and program approval, pursuant to N.J.A.C. 6A:9A-3.1 and 3.2; establishing requirements for program admission; developing a process for verifying the candidates' prior education and teaching experience; agreeing to accept earned credits or completed coursework hours from a prior educator preparation program for any out-of-State candidate who has not yet completed an educator preparation program and transfer those credits or coursework into the CE program to count toward its completion; developing policies and processes to accept transfer earned credits and/or completed coursework hours; and developing systems and processes to ensure that candidates meet all of the requirements at N.J.A.C. 6A:9B-8.8.

Subchapter 6. Teacher Leader Preparation Programs

N.J.A.C. 6A:9A-6.1 Approval Criteria and Process for Teacher Leader Preparation Programs

This section sets forth the requirements for the Commissioner's approval and periodic review of teacher leader preparation programs. Teacher leader educator preparation programs prepare candidates to assume a non-evaluative leadership role within their school and school district, in which they may engage in activities such as peer instructional coaching, curriculum development, data analysis, in-house professional development, and whole-school and districtwide reform initiatives. The teacher leader role is focused on building the capacity of peers through a coaching and collaborative model.

N.J.A.C. 6A:9A-6.2 Teacher Leader Preparation Program Implementation

This section includes the program requirements that teacher leader preparation programs must implement.

N.J.A.C. 6A:9A-6.3 Admission to Teacher Leader Preparation Programs

This section requires a candidate admitted to a teacher leader preparation program to hold a valid standard instructional certificate, pursuant to N.J.A.C. 6A:9B. This is the only criterion for admission to a teacher leader preparation program.

N.J.A.C. 6A:9A-6.4 Teacher Leader Preparation Program

This section includes the curriculum, assessment, and clinical experience requirements for teacher leader preparation programs. This section also requires teacher leader preparation program to occur over the course of at least one school year, or its equivalent.

N.J.A.C. 6A:9A-6.5 Teacher Leader Preparation Program Clinical Requirements

This section sets forth the required clinical experiences that must be embedded throughout the teacher leader preparation program's duration. This section also enables school districts to allow teacher leader candidates to complete clinical experiences as part of the continuum of professional development and in lieu of their State-required hours of professional development.

N.J.A.C. 6A:9A-6.6 Recommendations for a Teacher Leader Endorsement

This section states that teacher leader preparation programs shall only recommend candidates to the Department for issuance of the teacher leader endorsement who have completed the teacher leader preparation program and all requirements, pursuant to N.J.A.C.

6A:9B-11A. The section also provides that teacher leader preparation programs have up to one year from the date the candidate completed the approved program to recommend the candidate to the Department for issuance of the teacher leader endorsement on the instructional certificate.

As the Department has provided a 60-day comment period in this notice of proposal, this notice is excepted from the rulemaking calendar requirement, pursuant to N.J.A.C. 1:30-3.3(a)5.

Social Impact

The rules proposed for readoption with amendments and new rules will have a positive social impact on students, teacher candidates, school districts, and CEAS and CE educator preparation programs. The rules proposed for readoption with amendments and new rules will prepare novice teachers to handle rigorous work and enable them to be effective in the earlier years of their careers. The proposed flexibility and additional pathways to enter educator preparation programs will increase the candidate pool and address the staffing issues that school districts are experiencing, while maintaining the quality of educators entering classrooms.

The rules proposed for readoption with amendments and new rules will maintain a strong novice teacher workforce for students, thus enabling school districts to provide higher-level coaching and support rather than remedial pedagogical training. The rules proposed for readoption with amendments and new rules will provide for a thorough data collection, which will inform teacher candidates and school districts about program and hiring decisions, as well as educator pipeline development.

Finally, the rules proposed for readoption with amendments and new rules will clarify the Department's expectations and increase autonomy and innovation for educator preparation programs.

Economic Impact

The rules proposed for readoption with amendments and new rules will have a minimal financial impact on individual candidates completing educator preparation programs. The additional options for meeting the basic skills requirement may eliminate the number of times candidates attempt certain assessments, which can decrease expenses. Additional options for CE preservice criteria may decrease cost for candidates transferring prior experiences or coursework. CE holders with previous teaching experience may be able to begin teaching earlier under a provisional certificate, thereby allowing them to earn income as a teacher.

The rules proposed for readoption with amendments and new rules will broaden accreditation options for educator preparation programs, which may decrease expenses for preparation program providers.

Jobs Impact

It is not anticipated that jobs will be either generated or lost as a result of the rules proposed for readoption with amendments and new rules.

Agriculture Industry Impact

The rules proposed for readoption with amendments and new rules will have no impact on the agriculture industry.

Federal Standards Analysis

The rules proposed for readoption with amendments and new rules will further align the chapter with the Federal Every Student Succeeds Act (P.L. 114-95), specifically Section 5

Supporting Excellent Educators (5.1 Educator Development, Retention and Advancement, 5.2 Support for Educators, and 5.3 Educator Equity) and will ensure that New Jersey’s public-school system prepares students for postsecondary education and the 21st century workplace. The rules proposed for readoption with amendments and new rules are in compliance with both Federal regulations and statutes.

Regulatory Flexibility Analysis

Approved educator preparation programs could be considered small businesses, as that term is defined by the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq. The rules proposed for readoption with amendments and new rules apply to approximately five educator preparation programs throughout the State. The rules proposed for readoption with amendments and new rules impose recording, recordkeeping, or other compliance requirements by requiring educator preparation programs to maintain data and quality assurance systems for accreditation purposes, as well as the costs to maintain accreditation. The rules proposed for readoption with amendments and new rules reflect the minimal amount of paperwork and recordkeeping appropriate to ensure quality educator preparation programs, and the desire to minimize the burden on small businesses. No additional professional services should be necessary to comply with the rules proposed for readoption with amendments and new rules. There are no capital costs and minimal costs associated with the rules proposed for readoption with amendments and new rules. There should be no adverse economic impact on small businesses.

Housing Affordability Impact Analysis

The rules proposed for readoption with amendments and new rules will have an insignificant impact on the affordability of housing in New Jersey. There is an extreme

unlikelihood the rules proposed for readoption with amendments and new rules would evoke a change in the average costs associated with housing in the State, as the rules proposed for readoption with amendments and new rules solely impact individual educators, school districts, and educator preparation programs in New Jersey.

Smart Growth Development Impact Analysis

The rules proposed for readoption with amendments and new rules will have an insignificant impact on smart growth. There is an extreme unlikelihood the rules proposed for readoption with amendments would evoke a change in housing production in Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan in New Jersey because the rules proposed for readoption amendments and new rules solely impact individual educators, school districts, and educator preparation programs in New Jersey. Accordingly, no further analysis is required.

Racial and Ethnic Community Criminal Justice and Public Safety Impact

There is an extreme unlikelihood the proposed rules for readoption with amendments and new rules would have an impact on pretrial detention, sentencing, probation, or parole policies concerning juveniles and adults in the State because the proposed amendments concern individual educators, school districts, and educator preparation programs in New Jersey.

Full text of the rules proposed for readoption may be found in the New Jersey Administrative Code at N.J.A.C. 6A:9A.

Full text of the proposed amendments and new rules follows (additions indicated in boldface **thus**; deletions indicated in brackets [thus]):
