HOW-TO GUIDE

# TIPS & TRICKS

## PAPER

Paper can be folded or stacked (up to 4 pieces) to cut multiple copies of the same die at once – just make sure to depress the handle a few extra times to cut all the way through the paper.

## MATERIALS

If you can cut it with a scissors – you can probably die cut it!  
Paper, card stock, poster board, felt, fabric, bubble wrap, sandpaper...  
***Not sure – just ask!***

## LAMINATING

If you want your individual shapes to be laminated – *lamine the paper first* and then cut the shape.

***CUT ONCE and DONE!***
