WHEREAS, the Medical Center is willing and able to accept transfers of Hospital patients for diagnosis and treatment, as requested by the Hospital;

WHEREAS, the parties share the objectives of good patient care and optimum and efficient use of health care resources.

NOW, THEREFORE, in consideration of the covenants and promises contained herein, and intending to be legally bound, the parties agree as follows:

1. TRANSFER OF PATIENTS.

a. From Hospital to Medical Center. When a patient's treating physician determines that it is medically necessary to transfer a patient from Hospital to the Medical Center, then Medical Center agrees to provide emergency medical care and/or to admit the patient for hospitalization as promptly as possible, provided that (i) appropriate accommodations are available at Medical Center; (ii) the patient satisfies the applicable admissions requirements of Medical Center; and (iii) Hospital and Medical Center follow the agreed upon guidelines and procedures as set forth in Exhibit A. In accordance with Exhibit A, patients transferred to the Medical Center will be promptly returned to the Hospital when the patient's condition dictates and as determined by the Medical Center.

b. Consent to and Notice of Transfer. Except in an emergency when there is insufficient time for notice and/or consent, the patient's relatives or legally responsible party, shall be given adequate notice of the proposed transfer before the transfer occurs. Prior to any transfer under this Agreement, the transferring Institution shall secure all applicable consents required from the patient, the person responsible for the patient or the patient's attending physician. The patient, or if appropriate, the person responsible for the patient, shall be given adequate notice of the patient's transfer prior to the transfer in accordance with customary practice of the transferring Institution. The transferring Institution agrees to notify receiving Institution, as far in advance as reasonably possible, of an impending transfer.

c. Availability of Services for Medical Emergencies.

Medical Center shall make available its diagnostic and therapeutic services in the event of a medical emergency at the Hospital. Medical Center agrees to accept patients transferred to its Emergency Department, provided that (i) appropriate accommodations are available at Medical Center; (ii) the patient satisfies the applicable admissions requirements of the Medical Center; and (iii) Medical Center and Hospital follow the agreed upon guidelines and procedures as set forth in **Exhibit A**.

This abstract shall include current medical findings, diagnosis, rehabilitation potential, a brief summary of the course of treatment followed in the transferring Institution, nursing and dietary information, and ambulation status. Each party shall be responsible for billing and collecting its own payments for rendering services to the patients transferred to it pursuant to this Agreement. The patient or his/her third-party payor or insurer shall be responsible for paying the charges of each party for services rendered. Neither party to this Agreement shall be responsible to the other for paying such charges in the event the patient or third-party payor or insurer does not pay such charges. Also, neither party shall have any liability for any debts or obligations of a financial or legal nature incurred by the other party by virtue of this Agreement. Each party agrees that it shall not submit any bill or accept payment from any patient or third party payor with respect to services provided by the other party.

6. INDEPENDENT CONTRACTORS.

a. The parties are independent contractors. This Agreement does not make either party the agent, employee or servant of the other party for any purpose. Nothing in this Agreement shall be construed as limiting the rights of either party to affiliate or

contract with any other health care facility on any basis, including (but not limited to) other transfer agreements, while this Agreement is in effect. After a patient has been transferred from one facility to the other, the patient shall be solely and exclusively under the control and supervision of the receiving Institution, and the transferring Institution shall neither have nor exercise any supervision or control whatsoever over the rendering of services to the patient or the exercise of medical judgment in connection with such services.

b.
