AE - 100 yr. Flood Plain with BFEs

X - Areas outside 100 yr. & 500 yr. Flood Plains

X500 - 500 yr. Flood Plain**

Sandyston Township
Flood Plains

This map was developed using Q3 Flood digital data obtained from FEMA, but this secondary product has not been verified by FEMA and is not FEMA-authorized. The Q3 Flood Data are derived from effective FIRMs maps but do not replace those products. The Q3 Flood Data can be a valuable tool to assist FEMA and the user community in floodplain management, hazards analysis, and risk assessment activities. However, the geographic processing and conversion used to produce the Q3 Flood Data may introduce differences from the original paper FIRMs; therefore, the Q3 Flood Data product must be used with considerable care and judgment.
