Cigna HealthCare

of New Jersey, Inc. (Indirect wholly-owned subsidiary of Cigna Corporation) Statutory Financial Statements December 31, 2018 and 2017

Cigna HealthCare of New Jersey, Inc. (Indirect wholly-owned subsidiary of Cigna Corporation) Notes to Statutory Financial Statements

Note 1. Summary of Significant Accounting Policies

Organization and Operation

Cigna HealthCare of New Jersey, Inc. ("the Company") is a health maintenance organization ("HMO") which provides health insurance services throughout the region. Principal products and services include managed care products and services. The Company is a wholly-owned subsidiary of Healthsource, Inc. ("the Parent"), which is a wholly-owned subsidiary of Cigna Health Corporation ("CHC"), which is an indirect wholly-owned subsidiary of Cigna Corporation ("Cigna"). Cigna is a global health services organization incorporated in Delaware.

Acquisition of Express Scripts

The Company's ultimate parent entity, Cigna, acquired Express Scripts on December 20, 2018 in a cash and stock transaction valued at \$52.8 billion.

The acquired Express Scripts business accelerates Cigna's strategy by increasing its ability to put medicine within reach of customers while also helping to make it more affordable. Cigna can improve patient outcomes and help control the cost of the drug benefit by: 1) identifying products and offering solutions that improve patient outcomes and assist in controlling costs; 2) evaluating drugs for efficacy, value and price to select a cost-effective formulary; 3) offering cost-effective home delivery pharmacy and specialty services that produce cost savings for plan sponsors and better care for members; 4) leveraging purchasing volume to provide discounts to health benefit providers; and 5) promoting generic and lower-cost brands.

U.S. Tax Reform Legislation

Major U.S. tax reform legislation was signed into law on December 22, 2017, reducing the corporate income tax rate from 35% to 21% effective January 1, 2018, among other things.

Health Care Reform Act Taxes and Fees

Federal legislation imposed a moratorium on the health insurance industry tax for 2017 and 2019. The industry tax was assessed in 2018 and, under current law, will be imposed in 2020. The industry tax for the Company in 2018 was \$93 thousand. Because this tax is not deductible for federal income tax purposes, it negatively impacted the Company's effective tax rate in 2018.

A. Accounting Practices

The financial statements of the Company are presented in conformity with accounting practices prescribed or permitted by the State of New Jersey Department of Banking and Insurance ("The Department"), which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP") and include management's estimates and assumptions, such as those regarding medical costs and interest rates, that affect the recorded amounts. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP" or "SSAPs") has been adopted as a component of prescribed or permitted practices by the State.

The principal differences between statutory-basis financial statements presented herein and those prepared on a GAAP basis include nonadmitted assets, deferred income taxes, unrealized appreciation (depreciation) on bonds, and bad debt allowances and expenses. These statutory accounting practices disallow certain assets from admission in the Statutory Balance Sheets. These nonadmitted assets, otherwise included on the Company's balance sheets prepared under GAAP, include receivables greater than 90 days past due and certain non-current assets. Under GAAP, bonds classified as available-for-sale are carried at fair value with the related unrealized appreciation (depreciation) recorded as a component of equity. Under statutory accounting principally at amortized cost. Under GAAP, deferred taxes are recorded for any temporary differences between the tax basis of assets and liabilities to the extent it is more likely than not that the deferred tax assets are realizable, with changes in deferred tax assets and liabilities recorded as a component of net income tax expense. Under statutory accounting principles, the amount of deferred tax assets that may be admitted is generally limited based on the Realization Threshold Limitation Table in Statement of Statutory Accounting Principles ("SSAP") No. 101, *Income Taxes, a Replacement of SSAP 10R and SSAP 10.* The net change in the deferred tax assets and liabilities is recognized as a separate component of changes in unassigned surplus.

The Company obtained the explicit permission of the Department on February 9, 2018 to recognize a \$500,000 capital contribution, received by the Company on February 27, 2018 as an asset and in surplus as of December 31, 2018. If the capital contribution had not been recorded in the financial statements, receivables from parent, subsidiaries and affiliates and statutory surplus would have been lower by \$500,000 as of December 31, 2018. There was no impact to net income. The capital infusion receivable is disclosed as a non-cash item on the Statutory Statement of Cash Flows.

If the reporting entity had not used the above permitted practice that differs from the NAIC basis of accounting, a risk based capital regulatory event would have been triggered. The Company's total adjusted capital would have been lower by \$500,000 which would have moved the Company into a risk based capital company action level.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. NAIC SAP also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Significant estimates are disclosed throughout these notes; however actual results could differ from those estimates.

C. Accounting Policy

The Company uses the following accounting policies:

- (1) Cash, Cash Equivalents and Short-term Investments: Cash equivalents consist of investments with original maturities of three months or less from the time of purchase. Investments with original maturities of one year or less from the time of purchase are classified as short term. Cash equivalents and short-term investments are carried at cost.
- (2) Bonds: Bonds designated highest quality and high quality are carried at amortized cost. All other bonds are carried at the lower of cost or fair value. Amortization of bond premium or discount is calculated using the scientific (constant yield) interest method. Bonds containing call provisions are amortized to call date which produces the lowest asset value (yield to worst). Bonds are considered impaired and their cost basis is written down to fair value through net realized gains (losses), when management expects a decline in value to persist (i.e., the decline is other than temporary).

The Company holds no mandatory convertible securities or Securities Valuation Office ("SVO") Identified bond ETF's as of December 31, 2018 and 2017.

- (3) Common Stocks: The Company holds no common stocks as of December 31, 2018 and 2017.
- (4) Preferred Stocks: The Company holds no preferred stocks as of December 31, 2018 and 2017.
- (5) Mortgage Loans: The Company holds no mortgage loans as of December 31, 2018 and 2017.
- (6) Loan-Backed Securities: The Company holds no loan-backed securities as of December 31, 2018 and 2017.
- (7) Investments in Subsidiaries, Controlled and Affiliated Entities ("SCA"): The Company holds no investments in subsidiaries, controlled and affiliated entities as of December 31, 2018 and 2017.
- (8) Joint Ventures, Partnerships and Limited Liability Companies: The Company holds no investments in joint ventures, controlled and affiliated entities as of December 31, 2018 and 2017.
- (9) Derivatives: The Company has no derivative instruments as of December 31, 2018 and 2017.
- (10) Premium Deficiency Reserves: The Company anticipates investment income as a factor in its premium deficiency calculations.
- (11) Claims Unpaid and Unpaid Claims Adjustment Expenses: Claims unpaid and unpaid claims adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined. Management develops these estimates using actuarial methods based upon historical data for claim payment patterns, cost trends, product mix, seasonality, utilization of health care services and other relevant factors. When estimates change, the Company records the adjustment in medical and hospital expenses in the period the change in estimate occurs. Unpaid claim adjustment expenses represents a reserve for additional administrative expenses associated with unpaid health claims that are in the process of settlement, as well as those that have been incurred but not yet reported. This reserve is based on the historical relationship between claims handling expenses and incurred claims.
- (12) Asset Capitalization Policy: The Company made no changes to its asset capitalization policies during the years ended December 31, 2018 or 2017.

- (13) Pharmaceutical Rebate Receivables: The Company does not hold any pharmaceutical rebate receivables as of December 31, 2018 and 2017.
- (14) Net Investment Income: When interest and principal payments on investments are current, the Company recognizes interest income when it is earned. The Company stops recognizing interest income on bonds when interest payments are 90 days past due. Investment income on these investments is only recognized when interest payments are received. See Note 7 for further information.
- (15) Investment Gains and Losses: Unrealized capital gains and losses on investments carried at fair value are reflected directly in unassigned surplus. Realized capital gains and losses resulting from sales, investment asset write-downs and changes in valuation reserves are based on specifically identified assets and are recognized in net income.
- (16) Nonadmitted Assets: In accordance with NAIC SAP, certain assets or certain portions of assets are excluded from the Company's admitted assets on its Statutory Balance Sheet through a direct charge to unassigned surplus. Certain assets are limited by factors, such as percentage of surplus, as to the amounts that qualify as admitted assets. Such assets may include electronic data processing equipment and deferred tax assets.
- (17) Aggregate Health Policy Reserves: The Company includes an accrual for losses where it is probable that expected future health care costs and maintenance costs under a group of existing contracts will exceed anticipated future premiums and insurance recoveries on those contracts, known as Premium Deficiency Reserve ("PDR"). Investment income is considered in the calculation of premium deficiency reserves. The Company also includes the Minimum Medical Loss Ratio Rebate Accrual, if any, described below. In addition, the Company includes an accrual for losses on any policy that provides for the Extension of Benefits ("EOB") after termination of the policy. Any reserves are included in aggregate health policy reserves in the accompanying Statutory Balance Sheets.
- (18) Income Taxes: The Company is included in the consolidated United States federal income tax return filed by Cigna. Pursuant to the Tax Sharing Agreement with Cigna, federal income taxes are allocated to the Company as if it were filing on a separate return basis. The tax benefit of net operating losses, capital losses and tax credits are funded to the extent they reduce the consolidated federal income tax liability. The Company generally recognizes deferred income taxes when assets and liabilities have different values for financial statement and tax reporting purposes (temporary difference). Limitations of the admitted amount of the deferred tax asset are calculated in accordance with SSAP No. 101. See Note 9 for more detailed information about the Company's income taxes.
- (19) Provider Incentives and Other Risk Sharing Arrangements: The Company contracts with physicians or provider groups (collectively known as providers) to provide medical services to its members. The Company pays capitation or negotiated fees for defined services provided by the providers. The Company and some of the providers have entered into incentive sharing agreements. Under the terms of these agreements, certain providers are eligible to receive or owe a provider bonus/refund based on qualitative and quantitative factors. Risk sharing balances are estimated using current experience to calculate the receivable or payable balances for each contract. These estimates may be adjusted based on actual experience, contract terms, and the offsetting of receivables against payables.
- (20) Net Premium Income: Amounts charged for health care services are recognized as revenue in the month for which customers are entitled to medical care. Unearned premiums represent that portion of premiums received which are applicable to the unexpired terms of contracts in force. Medical loss ratio rebates required pursuant to the Public Health Service Act are recorded as a reduction to net premium income.
- (21) Minimum Medical Loss Ratio Rebate Accrual: The Company records its rebate accrual based on year-to-date estimated medical loss ratios calculated as prescribed by the interim final rule issued by the Department of Health & Human Services using year-to-date premium and claim information by state and market segment. Further information on the minimum medical loss ratio rebate can be found in Note 24.
- (22) Risk Sharing Provisions of the Affordable Care Act: Beginning in 2014, as prescribed by the Patient Protection and Affordable Care Act ("ACA"), three programs went into effect to reduce the risk for participating health insurance companies selling coverage on the public exchanges. These programs include a three-year (2014-2016) reinsurance program and a premium stabilization program comprised of a permanent component and a temporary component (2014-2016). The Company accounts for these programs in accordance with SSAP 107, Accounting for the Risk-Sharing Provisions of the Affordable Care Act. See Note 24 for additional information.
- (23) Section 9010 Insurer Fee: Federal legislation imposed a moratorium on the Affordable Care Act ("ACA") Section 9010 insurer fee for 2017 and 2019. The industry tax was assessed in 2018 and, under current law, will be imposed in 2020.

S. Bonds

As of December 31, 2018, the amortized cost and estimated fair values for the Company's bonds, including short-term investments and cash equivalents, by contractual maturity period were as follows:

| | | Amortized Cost | Fair Value |
|--|---|-------------------|-----------------|
| Due in one year or less Due after one year through five years | S | 7,762,545 | \$ 7,762,545 |
| Total | s | 9,844,509 | \$ 9,832,074 |

Actual maturities could differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Also, the Company may extend maturity dates in some cases.

As of December 31, 2018 and December 31, 2017, the gross unrealized appreciation (depreciation) for bonds by type of issuer, were as follows:

| | Amortized Cost | Appreciation | Depreciation | Fair Value |
|---|------------------------|--------------|----------------|------------------------|
| US Government Special revenue and assessment obligations | 1,002,602 1,079,363 | - | 11,977 458 | 990,625 1,078,904 |
| Total | 2,081,964 | - | 12,435 | 2,069,529 |
| 2017 | Amortized Cost | Appreciation | Depreciation | Fair Value |
| US Government Special revenue and assessment obligations | 2,383,358 1,113,641 | - | 7,244 8,509 | 2,376,114 1,105,132 |
| Total | 3,496,999 | - | 15,753 | 3,481,246 |

Management reviews bonds with a decline in fair value from cost for impairment based on criteria that include length of time and severity of decline; financial health and specific near term prospects of the issuer; changes in the regulatory, economic or general market environment of the issuer's industry or geographic region; and the Company's intent to sell or the likelihood of a required sale prior to recovery.

As of December 31, 2018, bonds with a decline in fair value from cost (primarily investment grade corporate bonds) were as follows, including the length of time of such decline:

| | Fair Value | Amortized Cost | Unrealized Depreciation | Count |
|--|---------------|-------------------|----------------------------|-------|
| One year or less: Investment grade More than one year: | 2,069,529 | 2,081,964 | 12,435 | 2 |
| Investment grade | - | - | - | - |

The unrealized depreciation of bonds is primarily due to the increase in market yield since purchase.

There were no other-than-temporary impairments of bonds as of December 31, 2018 and 2017.

The net unrealized depreciation on bonds that are carried at amortized cost of \$12,435 at December 31, 2018 and \$15,753 at December 31, 2017, is not reflected in the statutory financial statements.

There were no disposals of bonds for the years December 31, 2018 and December 31, 2017

Management may consider the scheduled reversal of deferred tax liabilities (including impact of available carryback and carryforward periods), projected taxable income, and tax planning strategies in making the assessment.

D. Reconciliation of total statutory income taxes reported to tax at statutory rate:

1. The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes including realized capital gains / losses. The significant items causing this difference are as follows:

On December 22, 2017, the president signed into law H.R. 1/Public Law 115-97, commonly known as the Tax Cuts and Jobs Act (the "Act"). The Act is highlighted by a reduction in the corporate income tax rate from the current 35% to 21% effective January 1, 2018. The remaining provisions of the law, most of which take effect on January 1, 2018, are not expected to have a material impact on the Company's results of operations beginning in 2018. Deferred income tax balances as of December 31, 2017 have been adjusted to reflect the reduced statutory tax rate that took effect as of January 1, 2018 pursuant to the Act. The tax reform impact amount disclosed in the above table represents the total revaluation of the gross deferred tax assets and liabilities to reflect the reduction in the corporate tax before consideration of admissibility. This amount is considered provisional as certain adjustments used to calculate the tax at year-end were based on estimates where additional guidance and information is required. This includes estimated adjustments to reflect modifications to the discounted tax basis of unpaid loss reserves. These provisions have no effect on the net deferred tax balance before consideration of admissibility as of December 31, 2017.

E. Carry forwards, recoverable taxes, and IRC Sec. 6603 deposits:

(1) At December 31, 2018 and 2017, the Company has utilized all its net operating or capital loss carry forwards.

(2) Income taxes, ordinary and capital, available for recoupment in the event of future losses are as follows:

F. Federal or Foreign Income Tax Loss Contingencies:

The statute of limitations for Cigna's consolidated income tax returns through 2014 have closed, and there are no pending examinations. Cigna has filed an amended 2014 consolidated tax return and the pending refund is subject to Internal Revenue Service (IRS) review. The IRS has examined ESI's tax returns for 2010 through 2012 for which there is a significant disputed tax matter, and currently under examination for 2013 through 2015. No material impacts are anticipated for the Company.

In management's opinion, the Company has adequate tax liabilities to address potential exposures involving tax positions the Company has taken that may be challenged by the IRS upon audit. These liabilities could be revised in the near term if estimates of Cigna's ultimate liability change as a result of new developments or a change in circumstances. No material contingent tax liability is included in the Company's current federal income tax payable. The Company does not expect a significant increase in federal or foreign contingent tax liability within the next twelve months.

By entering into this Fee Sharing Agreement (the "Agreement"), each subsidiary has consented to select Cigna as its "designated entity" for the payment of this Fee. The Agreement allows Cigna to pay each year to the United States Department of the Treasury the Fee owed collectively by all covered entities in the group, and to perform all necessary and appropriate actions that may be required to fulfill Cigna's responsibilities as the designated entity. This Agreement further allows Cigna to delegate to a wholly owned subsidiary the authority to perform these actions on Cigna's behalf. Net gain from operations is defined as income after taxes but prior to realized capital gains, as reported on the Statutory Statements of Revenue and Expenses. Litigation and Other Legal Matters

Cigna and its subsidiaries (including the Company, and collectively known as Cigna) are routinely involved in numerous claims, lawsuits, regulatory audits, investigations and other legal matters arising, for the most part, in the ordinary course of managing a global health services business. Except for the specific matters noted below, Cigna believes that the legal actions, regulatory matters, proceedings and investigations currently pending against it should not have a material adverse effect on Cigna's results of operations, financial condition or liquidity based upon our current knowledge and taking into consideration current accruals. Disputed tax matters arising from audits by the Internal Revenue Service ("IRS") or other state and foreign jurisdictions, including those resulting in litigation, are accounted for under the NAIC's accounting guidance for tax loss contingencies.

Pending litigation and legal or regulatory matters that Cigna has identified with a reasonably possible material loss are described below. When litigation and regulatory matters present loss contingencies that are both probable and estimable, Cigna accrues the estimated loss by a charge to shareholders' net income. The estimated loss is Cigna's best estimate of the probable loss at the time or an amount within a range of estimated losses reflecting the most likely outcome or the minimum amount of the range (if no amount is better than any other estimated amount in the range.) Cigna provides disclosure in the aggregate for material pending litigation and legal or regulatory matters, including accruals, range of loss, or a statement that such information cannot be estimated. Due to numerous uncertain factors presented in these cases, it is not possible to estimate an aggregate range of loss (if any) for these matters at this time. In light of the uncertainties involved in these matters, there is no assurance that their ultimate resolution will not exceed the amounts currently accrued. An adverse outcome in one or more of these matters could be material to Cigna's results of operations, financial condition or liquidity for any particular period.

Cigna Litigation with Anthem. In February 2017, Cigna delivered a notice to Anthem terminating the 2015 merger agreement, and notifying Anthem that it must pay Cigna the \$1.85 billion reverse termination fee pursuant to the terms of the merger agreement. Also in February 2017, Cigna filed suit against Anthem in the Delaware Court of Chancery (the "Chancery Court") seeking declaratory judgments that Cigna's termination of the merger agreement was valid and that Anthem was not permitted to extend the termination date. The complaint also sought payment of the reverse termination fee and additional damages in an amount exceeding \$13 billion, including the lost premium value to Cigna's shareholders caused by Anthem's willful breaches of the merger agreement.

On February 15, 2017, the Chancery Court granted Anthem's motion for a temporary restraining order and temporarily enjoined Cigna from terminating the merger agreement. In May 2017, the Chancery Court denied Anthem's motion for a preliminary injunction to enjoin Cigna from terminating the merger agreement but stayed its ruling pending Anthem's determination as to whether to seek an appeal. Anthem subsequently notified Cigna and the Chancery Court that it did not intend to appeal the Chancery Court's decision. As a result, the merger agreement was terminated.

The litigation between the parties remains pending. Trial is scheduled for February 2019. Cigna believes in the merits of its claims and dispute Anthem's claims, and Cigna intends to vigorously defend itself and pursue its claims. The outcomes of lawsuits are inherently unpredictable, and Cigna may be unsuccessful in the ongoing litigation or any future claims or litigation.

Express Scripts Litigation with Anthem. In March 2016, Anthem filed a lawsuit in the United States District Court for the Southern District of New York alleging various breach of contract claims against Express Scripts relating to the parties' rights and obligations under the periodic pricing review section of the pharmacy benefit management agreement between the parties, including allegations that Express Scripts failed to negotiate new pricing concessions in good faith, as well as various alleged service issues. Anthem requests the court enter declaratory judgment that Express Scripts is required to provide Anthem competitive benchmark pricing, that Anthem can terminate the agreement, and that Express Scripts is required to provide Anthem with posttermination services at competitive benchmark pricing for one year following any termination by Anthem. Anthem claims it is entitled to \$13.0 billion in additional pricing concessions over the remaining term of the agreement as well as \$1.8 billion for one year following any contract termination by Anthem, and \$150 million in damages for service issues ("Anthem's Allegations"). On April 19, 2016, in response to Anthem's complaint, Express Scripts filed its answer denying Anthem's Allegations in their entirety and asserting affirmative defenses and counterclaims against Anthem. The court subsequently granted Anthem's motion to dismiss two of The current scheduling order runs through the six counts of Express Scripts, amended counterclaims. completion of summary judgment briefing in December 2019. There is no tentative trial date.

Note 20. Fair Value Measurements

A. Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

Updates to SSAP 100 that became effective on January 1, 2018 allow the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

- Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.
- Level 2 Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities, spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.
- Level 3 Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.
- Fair Value Measurements at Reporting Date The Company has no financial instruments measured at fair value on the Statutory Statements of Assets and Liabilities, Capital and Surplus.

2. Fair Value Measurements in Level 3 of the Fair Value Hierarchy - None.

- 3. Level 3 Transfers None.
- 4. Valuation Techniques and Inputs The Company has no financial instruments measured at fair value on the Statutory Statements of Assets and Liabilities, Capital and Surplus.

B. Other Fair Value Disclosures

The Company provides additional fair value information in Notes 1 and 5.

C. Aggregate Fair Value of All Financial Instruments

The following tables provide the fair value, carrying value, and classification in the fair value hierarchy of the Company's financial instruments as of December 31, 2018 and 2017.

| Total | \$ 3,982,358 | \$ 3,998,111 | \$ 2,477,533 | \$ 1,504,825 | \$ | - | \$ | - |

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds

The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

Cash, Cash Equivalents, and Short-Term Investments

Short-term investments, cash equivalents, and cash are carried at cost which approximates fair value. Short-term investments and cash equivalents are classified in Level 2, and cash is classified in Level 1.

D. Disclosures about Financial Instruments Not Practicable to Estimate Fair Value - None.

Note 21. Other Items

Note 23. Reinsurance

Reinsurance is ceded primarily to limit losses from large exposures and to permit recovery of a portion of direct losses. Reinsurance does not relieve the originating insurer of liability.

Effective January 1, 1994, the Company entered into the CGLIC Reinsurance Agreement ("the Agreement") with CGLIC. Effective January 1, 2013, the Agreement was amended to change the reinsurer to CHLIC for claims incurred on January 1, 2013 and after. The Agreement is administered by CHC. Under the provisions of the Agreement, the Company pays a monthly premium based on an established rate per commercial health plan member. In return for premiums paid, the Company is reimbursed a percentage of costs in excess of a deductible for hospital and related services provided to individual health plan members. The required deductible per individual commercial health plan member 31, 2018 and 2017.

Note 25. Change in Incurred Claims and Claim Adjustment Expenses

The following table presents an analysis of reserves for claims payable and unpaid claims adjustment expenses and a reconciliation of beginning and ending reserve balances for 2018 and 2017. Reserves are stated on a net basis after deductions from reinsurers on unpaid losses.

| | 2018 | 2017 |
|-------------------------|-----------|-----------|
| Balances at January 1 | 1,605,076 | 505,625 |
| Incurred related to: | | |
| Current year | 8,253,921 | 6,343,314 |
| Prior year | (673,570) | (618,775) |
| Total incurred | 7,580,351 | 5,724,539 |
| Paid related to: | | |
| Current year | 6,529,830 | 4,752,514 |
| Prior year | 921,511 | (127,426) |
| Total payments | 7,451,341 | 4,625,088 |
| Balances at December 31 | 1,734,086 | 1,605,076 |

Unpaid claims and claims adjustment expenses attributable to insured events of prior years decreased by \$673,570 in 2018 and by \$618,775 in 2017, as a result of re-estimation of unpaid claims and claims adjustment expenses. The estimation process for determining these liabilities inherently results in adjustments each year for claims incurred (but not paid) in preceding years. Negative amounts reported for incurred related to prior years results from claims ultimately being settled for amounts less than originally estimated (favorable development). Positive amounts reported for incurred related to prior years result from claims ultimately being settled for amounts greater than originally estimated (unfavorable development). During 2018 and 2017, there were no significant changes in the methodologies and assumptions used in calculating the liability for claims unpaid and unpaid claims adjustment expenses.

30.4 Describe the sources or methods utilized in determining the fair values:

 Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar instruments with comparable terms and credit quality. In instances where there is little or no market activity for the same or similar instruments. the Company estimates fair value using methods, models and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price. These valuation techniques involve some level of estimation and judgment by the Company which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

Identification

I, Gregory N. Malone, Actuary, am an officer of Cigna HealthCare of New Jersey, Inc., and a member of the American Academy of Actuaries. I was appointed on March 18, 2014 in accordance with the requirements of the annual statement instructions. I meet the Academy qualification standards for rendering the opinion.

Scope 5

Reliance

In forming my opinion on the reserves for Cigna HealthCare of New Jersey, Inc., I relied upon data supporting the medical loss ratio rebate per the Public Health Service Act prepared by Sara Benning, Actuarial Advisor, as certified in the attached statement. I also relied upon data for all other actuarial items prepared by Meghan Smith Epaul, Actuarial Senior Analyst, as certified in the attached statement. I evaluated data for reasonableness and consistency. I also reconciled that data to the Underwriting and Investment Exhibit 2B of the company's current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary.

Opinion

In my opinion, the amounts carried in the balance sheet on account of the items identified above:

- A. Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;
- B. Are based on actuarial assumptions that produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;
- C. Meet the requirements of the Insurance Laws and regulations of the state of New Jersey and are at least as great as the minimum aggregate amounts required by any state;
- D. Make a good and sufficient provision for all unpaid claims and other actuarial liabilities of the organization under the terms of its contracts and agreements;
- E. Are computed on the basis of assumptions and methods consistent with those used in computing the corresponding items in the annual statement as of the preceding year-end; and
- F. Include provision for all actuarial reserves and related statement items which ought to be established.

The Underwriting and Investment Exhibit – Part 2B was reviewed for reasonableness and consistency with the applicable Actuarial Standards of Practice. Actuarial methods, considerations, and analyses used in forming my opinion conform to the relevant Standards of Practice as promulgated from time to time by the Actuarial Standards Board, which standards form the basis of this statement of opinion.
