Subject: Convening Student Leaders – Request for Contact Information

To continue upholding one of the key tenets of the State Plan for Higher Education—granting students a voice in the decisions that affect them—the Office of the Secretary of Higher Education (OSHE) is planning to convene student government presidents and leaders from your campuses in early/mid-March. The purpose of this convening is to engage directly with student leaders, hear about their priorities and issues, and highlight State resources available to them and their peers.

To ensure we are reaching out to the appropriate student leaders at each institution, OSHE is requesting institutions to provide the relevant contact information **by 5:00pm tomorrow, February 9th** via Qualtrics. The Qualtrics form was distributed to institution Vice Presidents for Student Affairs on January 31st.

Please feel free to reach out to Suchir.Govindarajan@oshe.nj.gov if you have any questions.
