

N.J.S.A. 26 2H-7c), and N.J.A.C. 8:33, Judith M. Persichilli, R.N., B.S.N., M.A., Commissioner, New Jersey Department of Health (Department), hereby publishes a notice that the certificate of need call for applications for the designation as a trauma center in accordance with the provisions at N.J.A.C. 8:33 and N.J.S.A. 26 2H-1 et seq., scheduled for June 1, 2022, is hereby canceled.

In accordance with Department procedures as set forth at N.J.A.C. 8:33-4 1(a), the Department is unable to provide sufficient advance notice to potential certificate of need applicants and interested parties to either prepare their respective certificate of need applications for designation as a trauma center or respond to such applications. In determining to cancel the call, the Department notes that N.J.S.A. 26 2KK-4(d) (P.L. 2013 c. 223), among other tasks, established a State Trauma Advisory Committee (STSAC) charged with the development of a formal Statewide trauma plan that defines the roles of all health care facilities in the State. The Department will be working with the STSAC to continue its evaluation of the current trauma system, collection of data, and preparation of a trauma report. It is premature to conduct a call for applications while the planning of a formal Statewide trauma system is under way.

DIVISION OF THE STATE LOTTERY

Notice of Receipt of Petition for Rulemaking

Ongoing Requirements to Maintain Courier Service Registration

N.J.A.C. 17:20-12.6

Petitioner: Carter Vance, General Counsel, Jackpocket, Inc.

Take notice that on June 17, 2022, the Division of the State Lottery (Lottery) received a petition for rulemaking, pursuant to N.J.A.C. 17:20-11.7, from Carter Vance, General Counsel, Jackpocket, Inc., seeking an amendment to N.J.A.C. 17:20-12.6(a)11, “On-going requirements to maintain courier service registration.” The existing rule states:

The courier service’s website and mobile applications shall offer for sale only New Jersey authorized game tickets produced by the affiliated agent’s dedicated terminal. The courier website and mobile applications shall be prohibited from the sale of all other products. [N.J.A.C. 17:20-12.6(a)11]

The proposed amendment would allow the courier website and mobile applications to offer internet and mobile gaming, as well as online sports wagering, through a shared or separate wallet, by way of a separate tab or other entry point on the courier service’s website or mobile application. The petitioner contends that such an offering is not precluded by the current regulation, but the proposed amendment would provide clarification.
